Will Get Check Up On Back

Kennedy Continues Work On Budget And Message

PALM BEACH, Fla. (AP) — President Kennedy faced a busy budget and his State of the Union message, an examination of his back and a visit to his ailing father scheduled.

The yearend checkup of the President's back was planned for Tuesday but it had to be delayed because Dr. Preston Wade, New York specialist, could not make plane connections.

White House press secretary Pierre Salinger has described the checkup as routine. He said the President has had no recent trouble with his back.

Five of Kennedy's key advisers, who arrived by plane Tuesday afternoon and huddled with him for about three hours, were due to return to the oceanside temporary White House for further discussions.

With Budget Director David E. Bell and others, Kennedy is whipping the budget for the fiscal year starting July 1 into final shape.

There have been predictions the budget will exceed $90 billion.

Beside Bell, here for conferences with Kennedy on the budget, the State of the Union message, or both, are:

Theodore C. Sorensen, his all-around aide who has the title of special counsel; Walter W. Heller, chairman of the Council of Economic Advisers; Lawrence F. O'Brien, assistant for congressional relations and a political trouble shooter, and Myer Feldman, assistant White House counsel.

Salinger said he expects Kennedy to deliver the State of the Union message personally, probably during the first week of Congress. Congress convenes Jan. 10.

Two of the President's sisters, Mrs. Stephen Smith and Mrs. Sargent Shriver, returned from Washington to be near their father, Joseph P. Kennedy, 73. They had gone home to spend Christmas with their families.

New Cabinet Post May Be Set Up Soon

WASHINGTON (AP)—President Kennedy is expected to lay aside an executive order that would prohibit racial discrimination in federally aided housing.

But, officials said Tuesday, he will speed up action on creation of a Cabinet-level department of urban affairs and housing, probably by taking a short cut—establishing the department under his own reorganization powers.

If this were done, congressignal opponents of the new department would have to muster enough support to veto the plan within 60 days of its announcement by the President.

It has been widely predicted that Robert C. Weaver, administrator of the Housing and Home Finance Agency, would be named secretary of the department and become the first Negro to attain Cabinet rank.

But officials said privately this apparently is as far as the Kennedy administration will go in the field of racial equality in housing until Congress adjourns next summer.

On the advice of administration leaders in Congress and some other political advisers, it was reported, Kennedy is deferring a long-considered executive order barring racial or religious discrimination in any housing built with federal help in the form of loan, loan guarantee or mortgage insurance.

Officials earlier predicted freely the order would be forthcoming before Congress reconvened Jan. 10. Kennedy promised such an order in his presidential election campaign.

Kennedy is expected to support civil rights bills pending in both houses to prohibit racial discrimination in employment, speed up integration of schools and outlaw poll taxes in federal elections.

Britain Sends Carrier, Ships To Guard Kuwait Against Threat Of Iraq

Other Secret Precautions Are Taken

Invasion Suspected After Troop Moves By Kassim On Gulf

LONDON (AP)—British officials today disclosed an armada is hurrying toward the Persian Gulf oil sheikhdom of Kuwait to meet a suspected Iraqi military threat.

The admiralty said that at least six warships, led by the 27,000-ton aircraft carrier Centaur, have sailed from the East African base of Mombasa for an unannounced destination.

Other officials reported that the ships—which include two frigates, a tank landing ship and two big fleet auxiliaries—are heading for the Kuwait area.

They added several other precautionary British fleet moves are under way but are secret.

Over the Christmas weekend, intelligence and diplomatic reports from the region indicated to the British governmnt that Iraqi Premier Abdel Karim Kassim has been massing troops, possibly as the prelude to an invasion to achieve the annexation of Kuwait he threatened last summer.

The Defense Ministry announced Tuesday that 300 troops, most of them transport aircraft crewmen, had been put on the alert, and troops were reported standing by to be flown from Nairobi, Kenya, if needed.

Britain forestalled an Iraqi invasion last July by landing troops in Kuwait at the request of Sheik Abdullah as-Salim as-Sabah after Kassim renewed his country's claim to the little neighboring territory.

Britain is bound by treaty to protect the sheikdom on the northern end of the Persian Gulf. Kuwait was a British protectorate until last June. British forces withdrew from Kuwait in September after Arab League countries, despite Iraq's objections, sent 2,000 troops to Kuwait to protect it.

The British announcement asserted that "during the past 24 hours our forecast that the Christmas period might be used to increase tension has been partially confirmed as far as the Middle East is concerned.

"Although operations are not thought to be imminent, certain small-scale precautionary measures have again had to be taken."

Boys At Play Find Checks, Holdup Clues

Clothes Line, Mask Buried Near River In West End Area

The first real clues in a $3,700 armed robbery Christmas Eve at a Glenmoor grocer's home came late Tuesday afternoon when eight ripped checks, two canvas bank deposit bags, a black handkerchief and three lengths of clothes line were found buried along the riverfront in West End by two boys at play.

The boys notified East Liverpool police, who turned over the items to the sheriff's office as evidence in the robbery at the home of Leander Henson of the Y. & O. Rd near Glenmoor, operator of a grocery store adjoining his home.

Although $1,200 in checks was included in the $3,700 loot, the eight recovered yesterday totaled less than $150. Most were personal checks for small amounts. They had been ripped to shreds and the names and amounts on some were indecipherable because of water soaking.

Police notified Sheriff Russell Van Fossan of the discovery. The sheriff came to East Liverpool to make the investigation, accompanied by Deputies Herman Wellman and James Gause.

A trio of masked bandits — one armed with a small revolver—robbed Henson of the market receipts after forcing their way into his home late Sunday night. They tied up the store proprietor with lengths of clothes line and forced his family into the bathroom.

The items found yesterday included canvas money bags bearing the names of the First National Bank and the Potters Bank & Trust Co., three lengths of heavy clothes line and a sheer black silk handkerchief about 18 inches square. All the items were mud-spattered.

Chief Americo Radeschi said the boys found the items buried under shale and leaves on the river bank near the Standard Oil Co. bulk station, which is just downstream from Patterson Field.

They noted part of one of the money bags protruding from the earth. Curious, they dug up the other items.

The checks included a $12 pay-

Last Session Planned For Council Tonight

The retiring City Council will wind up its affairs with a special meeting tonight at 8.

Action is scheduled on a series of routine year-end fund transfers, affecting the incinerator, water works, sewage disposal and fire departments and the "Meter Maid" office, according to John Melvin, chairman of the finance committee.

Council held its last regular meeting of the biennium Dec. 18. All the current members will retire at midnight Sunday.

Shippingport Power Plant Sets Record

The Shippingport atomic power station Tuesday night became the first nuclear power electric generating plant in the U.S. to produce a billion kilowatt hours of electricity.

The amount is sufficient to provide the continuous needs of 80,000 homes for four years.

The milestone in the U. S. effort towards the peaceful uses of the atom was reached at 7:46 and came just over four years after the Shippingport facility first went into operation.

Announcement of the achievement was made today by Phillip A. Fleger, chairman of the Board and president of Duquesne Light Co., which operates the station under contract with the U. S. Atomic Energy Commission.

The reactor plant was designed by Bettis Atomic Power Laboratories and operated for the AEC by Westinghouse Electric Corp.

The primary purpose of the Shippingport station is the development of technology for the design and operation of other nuclear power stations both in the U.S. and foreign countries.

The Shippingport project already has produced 1,500 technical documents which have been issued by the AEC for use by industry.

The major portion of the original nuclear fuel installed in the reactor four years ago still is in use.

A small portion of the fuel has been replaced twice during the four years.

The original fuel has already exceeded its designed life and is expected to continue to produce power into 1963, the utility said.

Two men charged with the burglary of Mickey's Place, a tavern at Ohio View, Industry, last Oct. 15, received probation today in Beaver County Court.

Albert R. Coffey of Rochester and James R. Coffey of New Brighton were given five years probation, ordered to pay costs and make $50 restitution each, and were fined $100.

Early Action Expected For Trade Policy

May Be First Chief Item Of Business For '62 Congress

WASHINGTON (AP) — Congress may tackle President Kennedy's proposal for a new trade program as its first major piece of business in 1962, if the strategy under consideration by administration leaders is adopted.

The idea would be to give opponents as little time as possible to mount a counter offensive to the administration's intense campaign for a broadened trade act—a campaign that has been under way since Congress adjourned in September.

The theme that the United States must promptly come to an agreement with the booming European Common Market or risk being squeezed out of vital export markets has been hammered by high officials in speech after speech during the recess.

A joint economic subcommittee headed by international trade-minded Rep. Hale Boggs, D-La., has provided a forum for additional arguments in favor of increasing the President's tariff-cutting powers.

The stiffest opposition to an expanded reciprocal trade program comes from Congress members scattered across the country and in both parties but united in having industries at home that consider themselves particularly vulnerable to foreign competition.

It was learned today that the House Ways and Means Committee, which has charge of this and other major administration proposals, may be asked to sidetrack one of the others in order to rush a reciprocal trade bill to the floor.

Even under forced draft, several weeks would be required to conduct hearings and shape a measure that would stand a chance of House passage. The key consideration likely would be proposals for help to vulnerable industries to diversify or otherwise adjust themselves to increased competition. Kennedy is expected to make detailed recommendations soon after Congress reconvenes Jan. 10.

Fire Destroys One Store, Damages Four

DEFIANCE, Ohio (AP) — Fire destroyed a shoe store and damaged four adjacent stores in downtown Defiance early today. Firemen battled the flames for three hours before getting it under control.

Fire Chief Raymond Schultz said there was no official damage estimate available until a survey is made of the stores' contents, but that he believed it would be high.

Cause of the fire was not determined, but is believed to have started in the basement of the Wilson-Priess shoe store. The first floor of the two-story shoe store collapsed.

9 Policemen Suspended At Steubenville

STEUBENVILLE—Nine members of the city police department have been suspended without pay for periods of three to five days for failure to protect the wreckage of a tractor-trailer loaded with dressed chickens.

A large quantity of chickens disappeared from the rig after it crashed on N. 6th St. at the foot of Stony Hollow Blvd. Nov. 26.

Residents of the neighborhood and passersby carted off most of the cargo, apparently without intervention by the officers.

The suspended policemen are Sgt. James McCartney and Patrolman John Mavromatis, Wensel Poole, Leo Lanaghan and Clarence Monney, all five days, and Capt. Sam Baker, Sgt. Michael Gaultiere and Patrolman Richard Wagner and William Loggie, three days.

The suspensions were effective Tuesday, according to Chief Robert C. Cornelius.

One Killed, 25 Injured In Train Mishap

Elevated Vehicle Rams Platform In West Philadelphia

PHILADELPHIA (AP) — One person was killed and at least 35 others injured Tuesday night when an elevated train rammed a station platform. Four of the five cars were derailed, teetering against a thin iron railing 35 feet above a busy West Philadelphia intersection.

Short circuits lit up the area with electrical flashes for 15 minutes following the accident at the Philadelphia Transportation Co.'s York and Dauphin Streets station.

The dead man was identified as Earl Giberson, 45, Philadelphia. Witnesses said the train bounced crazily for more than 200 feet before coming to rest, tilted against the railing. Falling concrete broke several store windows.

Police said there were about 100 passengers on the train, all of whom were trapped briefly until rescue workers could guide them to safety along the narrow catwalk. The injured were taken to nearby hospitals. None apparently were hurt seriously.

A fire, touched off by sparks from the third rail, broke out in the third car. Firemen controlled it quickly.

Auxiliary policeman John Somers, 26, one of the first rescuers on the scene, said there was some yelling but little panic.

524 Killed In Wrecks Over Holiday Period

CHICAGO (AP)—The nation's traffic deaths during the Christmas holiday totaled 524, the highest toll for a three-day Christmas period since 1955.

The Associated Press survey also showed 83 deaths in fires and 86 in miscellaneous accidents. The National Safety Council, which had estimated 500 traffic fatalities, said its count showed 523 killed. The traffic toll in last year's Christmas holiday period was 488, the lowest in 10 years for a three-day observance.

'Bat' Masterson Held

Armed Suspect Tracked 4 Hours

Sheriff Russell J. VanFossan and Chief Deputy James Miller captured an armed suspect in a burglary about 5 a.m. today after a four - hour trackdown through snow-covered fields and woods in Eastern Columbiana County.

The suspect is Richard H. (Bat) Masterson, 25, of Box 371, Columbiana, who officers say fled on foot from the Smith Feed Mill on Cannons Mills Hill, Route 30.

—:—

DEPUTY Miller said Masterson's trail led 10 miles through rough country until the fugitive was overtaken and arrested on Route 7 at the Kim Crawford fruit farm south of Rogers. The prisoner and officers were soaked and their clothes snagged from brambles.

Also being held at the jail in connection with the burglary are Masterson's brother, James, 18, of Girard, and Robert E. Treharn, 40, and his wife, Dorothy, 35, both of Austintown.

Miller reported they said they dropped the older Masterson at the feed mill and were to have picked him up after the burglary.

—:—

HOWEVER, an unidentified caller notified the sheriff's office at 10:33 p.m. of a car driving back and forth by the mill, and Deputy Sheriffs Cy Wellman and Ronnie Gause intercepted the Treharn car at the junction of Routes 30 and 7 near the mill.

They learned from the occupants that Masterson was armed. The State Highway Patrol and St. Clair Township Constables John Jackson, Harry Skelton and Lester McElhaney answered a call for assistance.

Road blocks were set up throughout the district, including one by Policeman Leon T. Zahrndt at the east end of Lisbon on Route 30.

2 Congressmen Eye Governorship

Ribicoff Would Accept Draft To Run For Senate

By The Associated Press

Secretary of Welfare Abraham A. Ribicoff says he would accept a draft to run for the U.S. Senate from Connecticut next year.

Ribicoff, one of President Kennedy's earliest political supporters, said Tuesday night that a story in the Hartford Courant saying he might accept the draft for the Democratic nomination was "basically correct."

His statement followed the declarations of two Democratic congressmen that they will seek the governorships of their states in 1962.

Rep. Samuel S. Stratton, a two-term Democrat from Schenectady who has fared well politically in a Republican area, announced he will seek the governorship of New York.

Rep. Dale Alford, elected to Congress in the aftermath of school integration troubles in his home town of Little Rock, declared he will seek the Democratic nomination for governor of Arkansas.

Ribicoff has been rumored as a possible opponent for Sen. Prescott Bush, a Republican who has said he will seek reelection.

Ribicoff told a newsman he would not seek the nomination at the state Democratic convention next June. But he confirmed the report in the Courant that he would accept a draft.

Stratton has received scattered support from upper New York State Democratic organizations. However, Mayor Robert F. Wag-

House Blaze Loss $9,000 At Wellsville

Furnace Overheats While Family's Out On Shopping Trip

The first major fire in Wellsville in four months swept through a Chester Ave. home Tuesday afternoon about 2:30, causing an estimated $9,000 damage.

The blaze at the home of Mr. and Mrs. James Tompkins, 1730 Chester Ave., is believed to have been caused by a faulty coal furnace.

Fire Chief Robert Lewis said today the furnace apparently became overheated in the absence of the family and set fire to the floor joists in the basement.

Mr. and Mrs. Tompkins had gone shopping about an hour and a half before the fire was discovered.

A neighbor, Guy Hanley, spotted the smoke and called the department from his home. He then went back outside and saw Asst. Chief Robert Lloyd down the street.

Hanley called to Lloyd, who remained at the scene until firemen arrived with the truck.

Lewis said there was fire in three outside walls, two interior walls, the basement and the attic when they arrived. The blaze was brought under control in about 20 minutes.

He said a check later showed that others in the neighborhood had smelled smoke earlier but couldn't determine where it was coming from.

The suspect is Richard H. (Bat) Masterson, 25, of Box 371, Columbiana, who officers say fled on foot from the Smith Feed Mill on Cannons Mills Hill, Route 30.

—:—

DEPUTY Miller said Masterson's trail led 10 miles through rough country until the fugitive was overtaken and arrested on Route 7 at the Kim Crawford fruit farm south of Rogers. The prisoner and officers were soaked and their clothes snagged from brambles.

Also being held at the jail in connection with the burglary are Masterson's brother, James, 18, of Girard, and Robert E. Treharn, 40, and his wife, Dorothy, 35, both of Austintown.

Miller reported they said they dropped the older Masterson at the feed mill and were to have picked him up after the burglary.

—:—

HOWEVER, an unidentified caller notified the sheriff's office at 10:33 p.m. of a car driving back and forth by the mill, and Deputy Sheriffs Cy Wellman and Ronnie Gause intercepted the Treharn car at the junction of Routes 30 and 7 near the mill.

They learned from the occupants that Masterson was armed. The State Highway Patrol and St. Clair Township Constables John Jackson, Harry Skelton and Lester McElhaney answered a call for assistance.

Road blocks were set up throughout the district, including one by Policeman Leon T. Zahrndt at the east end of Lisbon on Route 30.

2 Congressmen Eye Governorship

Ribicoff Would Accept Draft To Run For Senate

By The Associated Press

Secretary of Welfare Abraham A. Ribicoff says he would accept a draft to run for the U.S. Senate from Connecticut next year.

Ribicoff, one of President Kennedy's earliest political supporters, said Tuesday night that a story in the Hartford Courant saying he might accept the draft for the Democratic nomination was "basically correct."

His statement followed the declarations of two Democratic congressmen that they will seek the governorships of their states in 1962.

Rep. Samuel S. Stratton, a two-term Democrat from Schenectady who has fared well politically in a Republican area, announced he will seek the governorship of New York.

Rep. Dale Alford, elected to Congress in the aftermath of school integration troubles in his home town of Little Rock, declared he will seek the Democratic nomination for governor of Arkansas.

Ribicoff has been rumored as a possible opponent for Sen. Prescott Bush, a Republican who has said he will seek reelection.

Ribicoff told a newsman he would not seek the nomination at the state Democratic convention next June. But he confirmed the report in the Courant that he would accept a draft.

Stratton has received scattered support from upper New York State Democratic organizations. However, Mayor Robert F. Wag-

House Blaze Loss $9,000 At Wellsville

Furnace Overheats While Family's Out On Shopping Trip

The first major fire in Wellsville in four months swept through a Chester Ave. home Tuesday afternoon about 2:30, causing an estimated $9,000 damage.

The blaze at the home of Mr. and Mrs. James Tompkins, 1730 Chester Ave., is believed to have been caused by a faulty coal furnace.

Fire Chief Robert Lewis said today the furnace apparently became overheated in the absence of the family and set fire to the floor joists in the basement.

Mr. and Mrs. Tompkins had gone shopping about an hour and a half before the fire was discovered.

A neighbor, Guy Hanley, spotted the smoke and called the department from his home. He then went back outside and saw Asst. Chief Robert Lloyd down the street.

Hanley called to Lloyd, who remained at the scene until firemen arrived with the truck.

Lewis said there was fire in three outside walls, two interior walls, the basement and the attic when they arrived. The blaze was brought under control in about 20 minutes.

He said a check later showed that others in the neighborhood had smelled smoke earlier but couldn't determine where it was coming from.

Belgium's Resuming Relations With Congo

LEOPOLDVILLE, the Congo (AP)—Belgium resumed diplomatic relations with the Congo today, strengthening Premier Cyrille Adoula's hand in dealing with Katanga's secession.

Restoration of relations was announced as Parliament awaited the arrival of Katanga members to take their seats as provided in Adoula's recent unity agreement with Katanga President Moise Tshombe.

How Can I?

By ANNE ASHLEY

Q. What can I do if the old hem marks show after I have altered the length of a velvet dress?

A. Hold the affected areas over the spout of a steaming teakettle and, at the same time, spray alcohol on the marks with an atomizer. Before the velvet is quite dry, brush it back and fourth, with and against the nap, with a soft brush. This routine may need repeating for complete success.

Q. How can I clean gold braid?

A. Clean and brighten gold braid by brushing it first with a stiff brush, and then rubbing some powdered alum well into the braid. Let the alum remain, and the braid will take on a brighter look after an hour or two.

Q. How can I prevent cream from curdling when poured over acid berries or fruits?

A. By mixing a small pinch of baking soda with the cream before pouring.

Q. How can I remove some shoe polish stains from clothing?

A. Rubbing alcohol will usually do a good job of this.

Faster Than Living Cost

Personal Incomes Seen Rising Slowly In 1962

By SAM DAWSON

NEW YORK (AP) — You may have plenty of problems in 1962 — as an American citizen in a troubled world, as a harried taxpayer, as a competition beset businessman, a job hunter — few as a consumer.

The outlook is for 1962 to start off with plenty of goods and capacity to produce more, and with personal incomes rising slowly—but faster than the cost of living.

Here's what the majority of business economists see ahead for your job and pay, the price of food and homes, your spending plans for autos and appliances, and your reckoning with the tax collectors.

Jobs—More of them but still not enough.

Wage scales will rise, but moderately, with unions shifting the stress to getting security guarantees because of the still high total of the unemployed. Management will continue to emphasize cost cutting through mechanization. The new year may be scarcely better than 1961 for the young and unskilled and the older worker whose particular skill has been outdated. But total employment should rise, even if a growing labor force keeps many on the jobless lists.

Incomes—The average up only a little but the total showing a nice gain.

That's because more persons will be employed, many at higher wages or longer work weeks. Too, interest rates are rising, so that income from savings and investment will be higher. Corporate profits are on the upbeat, and many shareholders will get higher dividend payments. The rapid rate of rise in service fees and charges in recent years is expected to slow down in 1962 but still to fatten some incomes. If you belong to the lucky groups, those getting higher pay, interest, dividends, and fees, your increased income should more than offset the slow rise in prices.

Living costs — Still creeping higher without a real inflationary spurt.

The threat of inflation can be glimpsed in the wings: a U.S. Treasury deficit, greater demand for goods, slowly rising labor costs. But holding it off stage, especially in the first half of 1962, will be abundant supplies of most things and surplus capacity to provide still more, along with keen competition among domestic producers and a steadily rising volume of cheaper foreign goods. A year from now, the economists say, the cost of living index should be 1 to 1.5 per cent higher than today, but with bargains still to be found.

Food—Prices on a seasonal see-saw without much change for the year.

The usual spring rise in food prices should, weather permitting be reversed by fall. A growing population will mean higher consumption, and fatter incomes will mean more demand for expensive products. Weather will affect individual crops, but abundance of over-all supplies is a pretty sure bet.

Houses — More to rise than in 1961 but financing costs higher.

Builders see the increase in demand in 1962 coming from growing families seeking larger homes or from better heeled families buying more expensive dwellings. The forecast is for nearly 1.5 million housing unit starts, a gain of 8 per cent over 1961. Terms for getting government guarantees of mortgages have been relaxed, which means more families can afford the monthly payments, and more can buy better homes. Mortgage money will be plentiful at the start of the year, but a general rise in interest charges is forecast.

Autos — More buyers than in 1961 with all price grades getting a better play.

Prices have risen but little on the new models, and in some cases not at all. Tire makers are talking about the need for higher prices. So are gasoline refiners, but stiff competition and abundant supplies keep gas prices leaning toward the weak side.

Taxes — Rising at some levels but held in check by 1962 being an election year.

How Can I?

By ANNE ASHLEY

Q. What can I do if the old hem marks show after I have altered the length of a velvet dress?

A. Hold the affected areas over the spout of a steaming teakettle and, at the same time, spray alcohol on the marks with an atomizer. Before the velvet is quite dry, brush it back and fourth, with and against the nap, with a soft brush. This routine may need repeating for complete success.

Q. How can I clean gold braid?

A. Clean and brighten gold braid by brushing it first with a stiff brush, and then rubbing some powdered alum well into the braid. Let the alum remain, and the braid will take on a brighter look after an hour or two.

Q. How can I prevent cream from curdling when poured over acid berries or fruits?

A. By mixing a small pinch of baking soda with the cream before pouring.

Q. How can I remove some shoe polish stains from clothing?

A. Rubbing alcohol will usually do a good job of this.

Faster Than Living Cost

Personal Incomes Seen Rising Slowly In 1962

By SAM DAWSON

NEW YORK (AP) — You may have plenty of problems in 1962 — as an American citizen in a troubled world, as a harried taxpayer, as a competition beset businessman, a job hunter — few as a consumer.

The outlook is for 1962 to start off with plenty of goods and capacity to produce more, and with personal incomes rising slowly—but faster than the cost of living.

Here's what the majority of business economists see ahead for your job and pay, the price of food and homes, your spending plans for autos and appliances, and your reckoning with the tax collectors.

Jobs—More of them but still not enough.

Wage scales will rise, but moderately, with unions shifting the stress to getting security guarantees because of the still high total of the unemployed. Management will continue to emphasize cost cutting through mechanization. The new year may be scarcely better than 1961 for the young and unskilled and the older worker whose particular skill has been outdated. But total employment should rise, even if a growing labor force keeps many on the jobless lists.

Incomes—The average up only a little but the total showing a nice gain.

That's because more persons will be employed, many at higher wages or longer work weeks. Too, interest rates are rising, so that income from savings and investment will be higher. Corporate profits are on the upbeat, and many shareholders will get higher dividend payments. The rapid rate of rise in service fees and charges in recent years is expected to slow down in 1962 but still to fatten some incomes. If you belong to the lucky groups, those getting higher pay, interest, dividends, and fees, your increased income should more than offset the slow rise in prices.

Living costs — Still creeping higher without a real inflationary spurt.

The threat of inflation can be glimpsed in the wings: a U.S. Treasury deficit, greater demand for goods, slowly rising labor costs. But holding it off stage, especially in the first half of 1962, will be abundant supplies of most things and surplus capacity to provide still more, along with keen competition among domestic producers and a steadily rising volume of cheaper foreign goods. A year from now, the economists say, the cost of living index should be 1 to 1.5 per cent higher than today, but with bargains still to be found.

Food—Prices on a seasonal see-saw without much change for the year.

The usual spring rise in food prices should, weather permitting be reversed by fall. A growing population will mean higher consumption, and fatter incomes will mean more demand for expensive products. Weather will affect individual crops, but abundance of over-all supplies is a pretty sure bet.

Houses — More to rise than in 1961 but financing costs higher.

Builders see the increase in demand in 1962 coming from growing families seeking larger homes or from better heeled families buying more expensive dwellings. The forecast is for nearly 1.5 million housing unit starts, a gain of 8 per cent over 1961. Terms for getting government guarantees of mortgages have been relaxed, which means more families can afford the monthly payments, and more can buy better homes. Mortgage money will be plentiful at the start of the year, but a general rise in interest charges is forecast.

Autos — More buyers than in 1961 with all price grades getting a better play.

Prices have risen but little on the new models, and in some cases not at all. Tire makers are talking about the need for higher prices. So are gasoline refiners, but stiff competition and abundant supplies keep gas prices leaning toward the weak side.

Taxes — Rising at some levels but held in check by 1962 being an election year.

Independence Must Be Earned

Adlai Stevenson, U.S. representative to the United Nations, believes the session that ended before Christmas may have been decisive for the peace of the world, despite its mistakes and the attack by U.S. critics following its action in the Congo and lack of action in India.

Mr. Stevenson may be doing wishful thinking.

But something decisive for the peace of the world was learned in the Congo. Whether the lesson will be any help to the United Nations is another matter.

It was learned that independence must be earned.

Independence cannot be bestowed on a new nation.

Stability cannot be bestowed.

Nothing can be bestowed.

THIS HAS BEEN the tragedy of the Congo; Belgium put it on its own feet before it was ready to walk.

This will be the tragedy of all fledgling nations that lack the essentials of sovereignty.

They will be pushed into potential chaos if they get independence before they have developed collective responsibility.

Not only will they be unable to carry on ordinary routines of political management, but they will be unable to enter into agreements with other governments. They will lack national responsibility.

This point is ignored by critics of the United Nations. They charge that U.N. troops have intervened in civil war in the Congo. But events may prove that the United Nations intervened in the hope of subduing chaos long enough to bring the strongest of the leaders of the still disorganized Congolese tribesmen into a pattern of cooperation.

Premier Adoula of the central government at Leopoldville and President Tshombe of Katanga Province have yet to prove they can head up responsible governments.

WHAT, THEN, has been learned?

The lesson is that no nation can be thrust into existence by decree.

If nations are going to accept collective responsibility for averting chaos and seizure by Communist conspirators who make a science of turning chaos to their advantage, they must develop an orderly procedure for granting independence.

They must do systematically what now is done haphazardly. They must have an international instrumentality for building a foundation of self-government.

Communists would accuse such an instrumentality of being an agency of anti-Communist plotting; that could be expected. But it would be in fact an agency of independence, helping people in search of freedom to find it and secure it, as the United States once helped the people of the Philippines and Hawaii and as it tried to help Cubans.

No One Wants To Be Killed

The grim bookkeeping that keeps tab on holiday fatalities gave keepers of comparative statistics a new high this year — a minimum of 506 traffic deaths, first time since 1955 the total has passed 500.

In 1955, for a reason never known, except it was a three-day holiday, the traffic toll went to 609.

Fires killed 82 and miscellaneous accidents another 82 this year. This makes Christmas 1961 a memorable occasion for keepers of comparative statistics. It may be years before they can come up with a comparable three-day Christmas holiday; it will be, in fact, exactly five years. In 1966, Christmas falls on Sunday, as it did last year. Then in 1967 it falls on Monday, as it did this year. Both years it will be a three-day holiday.

Fatalities that occur on holidays have nothing to do, of course, with the holidays. They are related only to the total number of people in motion during a given period of time, as far as traffic accidents are concerned. As to fires and miscellaneous accidents, they are related only to the hazards encountered elsewhere.

If this were a dictatorship and people could be told what to do, an order for everybody to stay at home during a holiday would eliminate all traffic fatalities but bring about an automatic increase in deaths from gunshot, knives, clubs, carbon monoxide and heart attacks from shoveling snow —if snow fell in abundance.

There is no conceivable condition in which the accident fatality toll could be eliminated, even if holidays were abolished. Considering the continued growth of population and increase in the activity rate as more and more things are undertaken, such as the recent rage for boating, the people of the United States have become amazingly safe.

They — we — would all be dead by this time if we had continued to be as reckless with our lives as we were a generation ago, when people died like flies amid only a fraction of the hazards that surround us now.

Anybody Can Tell The Boss

Premier Khrushchev's invitation to lesser officials in the Soviet Union to tell him when he's wrong will be shrugged off by the smart ones.

They will remember what happened in Communist China a few years ago when the head man invited criticism. A list was kept of the critics, then one day they were rounded up and disposed of permanently.

A few Russians will be smart enough to go through the motions of telling the No. 1 Communist about some mistake of no consequence that he already knows about, thereby keeping themselves in good standing as cooperative party workers. But even in societies with higher regard for personal rights than Russian society under the Communist party, it isn't healthy to tell the head man what he doesn't want to know.

Right here in the United States only a few weeks ago there was a backlash in official Washington that apparently started when a Kennedy administration insider resisted an invasion of Cuba. The insider was Chester Bowles, who once was to have been secretary of state and finally became undersecretary. Today he isn't even that, only a special adviser to the White House.

The trick is not knowing when the boss made a blooper but knowing how to tell him in a way that will make him think he discovered it himself, rectified the error himself and will not be held up to ridicule.

Trickier than the trick itself is persuading the boss no one ever will know about it but himself and the customary "thes four walls." This is not easy to do. Bosses hate blackmail, even mental blackmail.

This accounts for the fact that most candid heroes who told the boss he pulled a rock, now are working for someone else or hunting for a chance to make a living. Bosses don't like to be reminded that they are no smarter sometimes than the people who work for them and most particularly they don't like to be reminded of this in politics.

The Once Over

By H. I. Phillips

Death on United Nations is threatened and epitaph could read:

Here lies U.N.—
Alas, alack!
Too many knives
Stuck in its back.
II
Into the graveyard
Did it slip
Slaughtered by its
Own membership.

Russian policy of "a veto a day keeps progress away" mauled the organization, but nothing so shocked it as Nehru and Krishna Menon, who for years had expressed deep pain at violence, choosing Christmas season to cry "Over the top! and "On the double!" Reports of Krishna, his olive branch, preacher-robes and plastic wings gone, directing an invasion, and looking like an undernourished Napoleon, left free world gasping "Quick, the spirits fo ammonia."

Only a few days back Nehru had been with us talking like a prince of peace and expressing himself as foremost supporter of nonviolence. He seemed last man you'd ever expect to hear crying "Cut 'em off at the crossroads."

Grogginess of free world was increased when India's U.N. delegate declared Indian attacks were right, "charter or no charter, council or no council" and added "narrow minded references to legality under international law are meaningless because international laws were written by Europeans in a colonial atmosphere." (How defiant of U.N. can you get?)

It looks as if too many members were not diplomats seeking peace but acrobats rehearsing for a trampoline act at the old Palace. Uncle Sam once knew where he stood in UN but today he is victim of the "switcheroo," the false face and "The Twist" danced on an international scale. The U.S. can't even get an answer to "What time is it?" without a Russian veto. Happy New Year, but HOW?

BELGIUM TALKS of suing the U.N. for losses in Katanga. But all it might be able to get would be the earphones, mikes, lounge chairs, bar fixtures and ashtrays.

Mayor Wagner and his aides not only hung up their stockings but had pockets built into them. Administration rash of salary increases seemed to express slogan "The two-sleigh garage and a Santa in every office!"

Druggists in Washington argued that medicines were not costly considering fact per capita expenditure on tobacco was $37, on liquor, $54 and on medicine only $12. Yeah, but who can smoke a capsule or make a highball with a couple of pills?

Truck with $75,000 worth of liquor was stolen in New York. That's one way to get enough drinks for an office party of ten or twelve people.

California nudist camp has an art class in nude painting. You'd naturally think they could do it from memory.

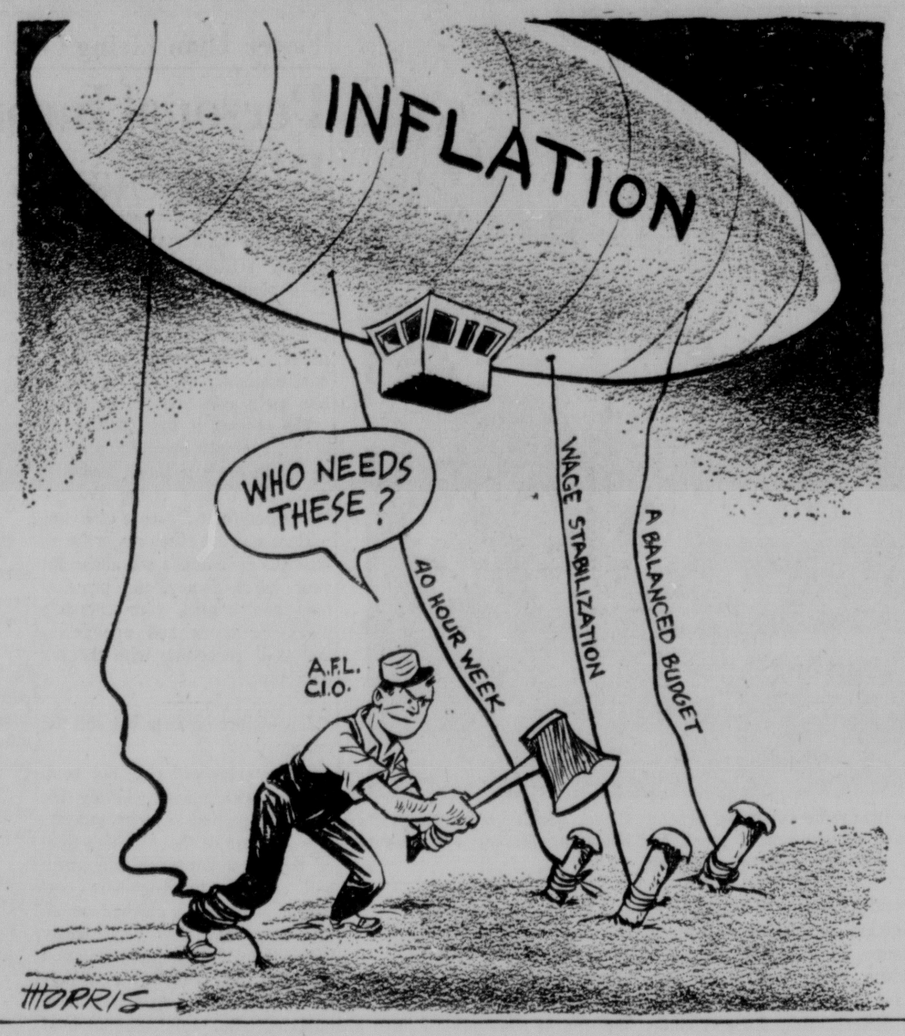

WE WONDER what the ghost of Mahatma Ghandi thinks of Nehru and Krishna Menon directing armed attacks?

Prominent educator says push-button teaching is coming, with machines instructing more students in shorter time. He predicts college year could be cut down to three and perhaps two years. Maybe we shall see the one-year college course with annual model changes, all emphasizing "compact" education.

Possibly it may mean diplomas through slot machines and settlement of football rivalries by computer.

Nehru will find it has to follow the Ghandi fasting routine. He now has to eat so many words.

The Adventurer!

Communists See Haven

By Victor Riesel

NEW YORK

There is a Christmas tree and a gay Merry Christmas sign in the foyer to the right of the staircase as you enter 23 W. 26 St. This might not be news these Yuletide days — except that you note as you walk in for an unguided tour of the small building that the Communist newspaper, The Worker, is to the left of the tree. One flight above it is the party's state section and on the top story is the national headquarters of the CPUSA.

Victor Riesel

All is serene. The staff of some 10 men and women are quite spoken, softly mysterious. They are not at all disturbed, now that all registration deadlines are past, that each party member and 50 of its national leaders face virtual life imprisonment and huge fines — if convicted and punished to the full extent of the law for not registering as agents of the Soviet Union. If convicted, I repeat.

-:-

THE PARTY headquarters does not seem over-impressed by the legal threat. Men and women pound pre-Stalin era typewriters. The five-trunk line switchboard keeps buzzing.

Why all the Communist calm? Why the invitations to return for exclusive interviews, should the visitor be interested?

Why? — because the party has destroyed all its records. It has ordered its people to meet less frequently and in smaller groups.

Its leaders are convinced that none of them ever will go to jail because of our laws, the most free and democratic of all lands.

And the inner operational chiefs, such as general secretary Gus Hall, labor control section director Irving Potash, and one Jack Stachel of ancient memory, are trying to guess which one of their 50 colleagues will be arrested and stand trial.

This would be a second trial. It should not be confused with the first court action scheduled by the Federal Judiciary for Feb. 1. At the first trial the Justice Department's Internal Security section will attempt to convict the Communist party itself for not registering as an agency of Moscow.

-:-

THIS INVOLVES only the party, and conviction would not send anyone to jail — just a heavy fine against the party's assets.

And judging from the condition of the cult-of-ersonality era desks one observes at party headquarters, the government could not raise enough money to satisfy more than a few pennies of any fine against the party.

Thus it is the second trial which will be the showpiece. In mid-January the government will decide which of the leaders to arrest for not registering the party. This indictment will be for a criminal action. Therefore the United States will have to prove beyond reason of any doubt that the Communist who have been arrested are guilty.

How does the government do this? How can the government establish the membership of the men on trial. How does the government prove that they were leaders at the time the law required the party and its leaders to register?

This will be virtually impossible without witnesses and documentation offered by the FBI. Therefore the identity of scores of FBI undercover agents will be exposed without any guarantee that they will have been sacrificed at least to obtain convictions.

-:-

THERE IS MORE at stake for the government's counter-intelligence system.

Some years ago the Supreme Court ruled that any defendant in a criminal action could not be confronted with adverse testimony, either by a witness or documents without making most of the federal secret background reports, interviews, etc. available to the man on trial.

In the case of the FBI this would mean offering the Communist party and its leaders the original confidential reports turned in by the undercover agents and the intelligence analyses of the basic FBI investigations.

This would do more than expose undercover FBI men. It would rip wide open the entire technique of FBI operations. Obviously the government has no intention of doing this.

This principle of access to government prosecution documents was set in the case of Clinton Jencks, a high official of the Mine, Mill and Smelter Workers Union. He was indicted and convicted in the lower courts but won reversal when the high bench ruled the government wrong in refusing to show him its secret data.

So, despite all the furor, it looks like the Communist party, U.S.A. and its leaders and members will be operating here for a long time.

President On The Go

By James Marlow

WASHINGTON

It's gotten so that if an American president stayed home he'd look like a snob.

In the past 11 months President Kennedy has received at least 30 visits from foreign heads of state and prime ministers, plus scores of ambassadors, and has made several foreign visits himself.

There are four good reasons for this back-and-forth business:

Truly fast travel; end of isolationism and new, close ties with other countries; abandonment of the idea that only a president's subordinates should dabble in diplomacy and Premier Khrushchev himself.

It would have taken President James Madison about 2½ months —allowing two weeks for a look-around—if he had wanted to visit the 1815 Congress of Vienna in those days of sail and coach.

That would be too long for any president to be away. But Kennedy could get to Vienna now in less than 11 hours by jet.

Once this country moved out of its historic isolation—with World War II—it began moving in the exact opposite direction. Now it is tied to nations around the world by military alliances and foreign aid.

This has created a community interest which this country never shared in before and makes it natural for all the big wigs involved to visit one another and talk shop.

In the long history of American isolationism it was routine for American presidents — with the brief exception of Wilson and until Franklin D. Roosevelt — to stay home and let their secretaries of state and ambassadors do the direct dealing with other governments.

There was no reason why they shouldn't have stayed home: the United States' policy was to be aloof.

The war ended that. The British and Russian foreign secretaries were nobodies in the wake of Prime Minister Winston Churchill and Joseph Stalin. Time was short, events momentous. So Roosevelt dealt with them in person.

He made some memorable trips abroad to do so. President Harry S. Truman began the foundation of military alliances and foreign aid which President Dwight D. Eisenhower inherited. This led in time to exchange of visits, but for one particular reason above all.

Premier Khrushchev made personal diplomacy a way of life for a head of government. He said the foreign ministers were messenger boys, who could handle the grimy details after the top men made agreements.

But, he said, only the top men could get things done. Eisenhower would have looked negative or self-conscious if he had refused to meet the Russian.

The fact that his summit meeting with Khrushchev produced no successes has been pointed to by those who want a return to the stodgy diplomacy of the past as a reason why presidents should stay home.

But that summit meeting can't be called a failure. It would have been amazing if, in one brief meeting, the world's ills could have been healed.

So far Kennedy, who met Khrushchev in Vienna last June, has not had to go into lengthy negotiations on any of his foreign trips. No doubt he will in time.

That he will continue to make visits abroad—given new times and new problems—seems inevitable.

Down Through The Years

From The Review Files

THIRTY YEARS AGO — Mrs. Isaac Riley of Ohio Ave. picked a red rose from an outside bush on Christmas Day.

Members of the East Liverpool municipal family, who were to assume duties New Year's Day, were guests at a dinner in the Travelers Hotel. Mayor Ralph C. Benedum and Safety - Service Director J. M. Moore were the hosts.

TWENTY YEARS AGO — Six homes in the Kent St. area of East End were without water as the city rushed repairs on a four-inch main that broke on the Pennsylvania Ave. Hill Rd.

Mrs. Mary Devon was named commander of the Navy Mothers Club.

Charles Horton and Miss Moira Gauron received a prize for waltzing at a semi-formal dance given by the Senior division of the Rosa Mystica Sodality of St. Aloysius Catholic Church.

TEN YEARS AGO — A crash on Routes 7 and 30, near the Substation, demolished a steel-laden tractor-trailer and a Marine sergeant's auto, causing damage estimated at $9,000. There were no injuries, however.

Dr. John F. Steel, chief of the Lisbon Volunteer Fire Department for 47 years, resigned.

Peace Without War?

By David Lawrence

West Needs Leverage In Dealing With Reds

"Peace on earth" — nearly everybody wants it. "Good will toward men" — almost all the peoples of the world feel it toward one another. Then what's wrong? Why is war threatened despite the innate desires of peoples?

David Lawrence

These qustions have never been satisfactorily answered since the Caesars of yesterday marched out of their native lands to conquer other lands. Nor have they been answered in the modern world of the Hitlers and the Stalins.

Illusions still persist — that somehow by personal conferences between monarchs or heads of states Utopia can be achieved, or at least war prevented. But these talks largely have proved fruitless, because the approach is to an unmoral dictatorship that threatens its adversary from a position of strength and believes he either will not fight or has too much at stake to risk a fight.

If one party has no leverage when two sides "negotiate," then the victory must go always to the bully and the bluffer.

Today the concept that the West can lead from strength is discounted by the knowledge in Moscow, for instance, that the West is disunited and that America will not "go it alone" in a military sense.

The Soviets doubtless feel they do not need to attack — that they need only to threaten, and eventually they will have their way.

IT IS TRUE that at West Berlin there has been a show of military force by the West that has caused the communists at least to hesitate to provoke a large conflict.

Meanwhile, the Communists have pressed their "cold war" in other areas. They probably were back of India's seizure of Goa. Krishna Menon, India's minister of defense, is known to be very close to the Communists. In U.N. meetings he invariably takes the Communist side.

He has a strange and unexplained influence over Nehru. He doubtless persuaded Nehru that conquest of Goa is important to India's prestige.

Poor Nehru! He said in a speech that it was "surprising" that friendly countries like Britain and the United States should have been angry over Goa. Such naivete by the head of the government of India, who recently returned from a visit with President Kennedy at the White House, seems incredible.

"Some of their (Western) newspapers," said Nehru, "called us hypocrites. India will not reply to them in anger. Perhaps they saw things from a different prespective."

True, indeed, there's a different "perspective" in the Western world — a perspective of morality and a belief that the commandment, "thou shalt not steal," is ingrained in the moral philosophy of every religion of the world, including the Moslem faith.

How is the United States to assert its leadership in the face of India's theft of Goa and Indonesia's threat to steal Dutch New Guinea?

What leverage can the West mobilize to impress Moscow? Is military force—which could mean nuclear force—the only answer?

SOONER OR LATER Western diplomacy, which relies on talk and more talk, negotiations and more negotiations, will have to find another source of strength in addition to military force.

This could be based on a right long granted by international law —the right to withhold trade from an enemy.

The principle can be applied to a "cold war" as well as it has been to a "hot war."

If the free nations of the world decided to cut off all diplomatic, financial and economic relations with the Communists and also to "quarantine" — as President Franklin D. Roosevelt used the word—all those nations, whether in Latin America or Africa or Asia, which continue to allow Communist agents and Communist money to enter their domain, then there would be a powerful leverage in dealing with Moscow.

The policy needs merely to be organized by the West into a definite plan and laid down at the conference table as a weapon to be used only if the Soviet government doesn't stop threatening the peace of the world.

Then the Berlin problem and the troubles with Communist intrigue in the Congo, in South Vietnam and Laos would soon come under control. The Soviets cannot live in isolation.

But to confront the Soviets with such a program in secret would be of little avail.

It needs full disclosure to the peoples of the world so that they may know all about it and lend their moral force to the support of a real program for peace.

Whump!

By Truman Twill

I am going to hate to see another football season end, if it ever does. By the time the last post-season games are played, it is only a few weeks until pre-season practice. And when that's over, it's only a few months until the boys square away for early fall practice, before the real thing begins all over again.

During the actual season, running from September through December, football gives millions of us something to talk about. It's fruitful.

With the possible exception of basketball, it engages more minds more intensively than anything we do in this republic.

It shows what Americans can do when they put their minds to it and when all of us are older and bright-eyed children stand in front of us and demand to know what we did that was outstanding, we can reply with gutty conviction, "We invented big-time football."

We can go on to explain that this balanced the things we brought to less than a peak of perfection, such as coming to grips with the automobile, which we allowed to become a motorized sacred cow, running loose over our civilization.

We never figured out what to do about education, either, or even what education was, but by gravy we figured out what football was.

We groped for a way out of substandard housing in the riabbit warrens of our cities, but when it came to football we wasted no time groping. We resolved the dilemma into a program of action.

Even when football got into the courts, including the Supreme Court of the United States, we whammed and whumped through to clean-cut gains with no loose threads left dangling, which was more than we were able to do with the 14th amendment to the Constitution.

In the Solid South, where most things in our generation were seen one way while the Solid North was seeing them another way, there was no difference of opinion about football. A consensus was reached for once. The Solid South played to win, like everybody else.

And if some impudent moppet in the future blinks at us and wonders why we didn't put the same zing and ping to work on safety belts for motorists, job retraining for employes displaced by automation, pollution of rivers and some our other fluffs, we may have to say, "Well, kid, it was because we saw our duty and performed it where football was concerned, but these other things weren't so easy. There were always differences of opinion. We were single-minded about football and many-minded about them. That made the difference."

That's why I will miss football, where all necessities are obvious and all problems self-solving; where you fire the coach when the team loses and give him a new car when the team wins; where a brilliant performer is rewarded with a bonus and his picture in the papers; where you give the old leather to the big guy and send him over the middle in a tight spot; where the wherewithal is forthcoming when the need is defined; where the plays are diagrammed and woe betide the sucker who misses a block.

It's the only thing left that people can talk about without frustration. The United States can't be unbeatable at everything, but it's unbeatable at football. Whump!

Independence Must Be Earned

Adlai Stevenson, U.S. representative to the United Nations, believes the session that ended before Christmas may have been decisive for the peace of the world, despite its mistakes and the attack by U.S. critics following its action in the Congo and lack of action in India.

Mr. Stevenson may be doing wishful thinking.

But something decisive for the peace of the world was learned in the Congo. Whether the lesson will be any help to the United Nations is another matter.

It was learned that independence must be earned.

Independence cannot be bestowed on a new nation.

Stability cannot be bestowed.

Nothing can be bestowed.

THIS HAS BEEN the tragedy of the Congo; Belgium put it on its own feet before it was ready to walk.

This will be the tragedy of all fledgling nations that lack the essentials of sovereignty.

They will be pushed into potential chaos if they get independence before they have developed collective responsibility.

Not only will they be unable to carry on ordinary routines of political management, but they will be unable to enter into agreements with other governments. They will lack national responsibility.

This point is ignored by critics of the United Nations. They charge that U.N. troops have intervened in civil war in the Congo. But events may prove that the United Nations intervened in the hope of subduing chaos long enough to bring the strongest of the leaders of the still disorganized Congolese tribesmen into a pattern of cooperation.

Premier Adoula of the central government at Leopoldville and President Tshombe of Katanga Province have yet to prove they can head up responsible governments.

WHAT, THEN, has been learned?

The lesson is that no nation can be thrust into existence by decree.

If nations are going to accept collective responsibility for averting chaos and seizure by Communist conspirators who make a science of turning chaos to their advantage, they must develop an orderly procedure for granting independence.

They must do systematically what now is done haphazardly. They must have an international instrumentality for building a foundation of self-government.

Communists would accuse such an instrumentality of being an agency of anti-Communist plotting; that could be expected. But it would be in fact an agency of independence, helping people in search of freedom to find it and secure it, as the United States once helped the people of the Philippines and Hawaii and as it tried to help Cubans.

No One Wants To Be Killed

The grim bookkeeping that keeps tab on holiday fatalities gave keepers of comparative statistics a new high this year — a minimum of 506 traffic deaths, first time since 1955 the total has passed 500.

In 1955, for a reason never known, except it was a three-day holiday, the traffic toll went to 609.

Fires killed 82 and miscellaneous accidents another 82 this year. This makes Christmas 1961 a memorable occasion for keepers of comparative statistics. It may be years before they can come up with a comparable three-day Christmas holiday; it will be, in fact, exactly five years. In 1966, Christmas falls on Sunday, as it did last year. Then in 1967 it falls on Monday, as it did this year. Both years it will be a three-day holiday.

Fatalities that occur on holidays have nothing to do, of course, with the holidays. They are related only to the total number of people in motion during a given period of time, as far as traffic accidents are concerned. As to fires and miscellaneous accidents, they are related only to the hazards encountered elsewhere.

If this were a dictatorship and people could be told what to do, an order for everybody to stay at home during a holiday would eliminate all traffic fatalities but bring about an automatic increase in deaths from gunshot, knives, clubs, carbon monoxide and heart attacks from shoveling snow —if snow fell in abundance.

There is no conceivable condition in which the accident fatality toll could be eliminated, even if holidays were abolished. Considering the continued growth of population and increase in the activity rate as more and more things are undertaken, such as the recent rage for boating, the people of the United States have become amazingly safe.

They — we — would all be dead by this time if we had continued to be as reckless with our lives as we were a generation ago, when people died like flies amid only a fraction of the hazards that surround us now.

Anybody Can Tell The Boss

Premier Khrushchev's invitation to lesser officials in the Soviet Union to tell him when he's wrong will be shrugged off by the smart ones.

They will remember what happened in Communist China a few years ago when the head man invited criticism. A list was kept of the critics, then one day they were rounded up and disposed of permanently.

A few Russians will be smart enough to go through the motions of telling the No. 1 Communist about some mistake of no consequence that he already knows about, thereby keeping themselves in good standing as cooperative party workers. But even in societies with higher regard for personal rights than Russian society under the Communist party, it isn't healthy to tell the head man what he doesn't want to know.

Right here in the United States only a few weeks ago there was a backlash in official Washington that apparently started when a Kennedy administration insider resisted an invasion of Cuba. The insider was Chester Bowles, who once was to have been secretary of state and finally became undersecretary. Today he isn't even that, only a special adviser to the White House.

The trick is not knowing when the boss made a blooper but knowing how to tell him in a way that will make him think he discovered it himself, rectified the error himself and will not be held up to ridicule.

Trickier than the trick itself is persuading the boss no one ever will know about it but himself and the customary "thes four walls." This is not easy to do. Bosses hate blackmail, even mental blackmail.

This accounts for the fact that most candid heroes who told the boss he pulled a rock, now are working for someone else or hunting for a chance to make a living. Bosses don't like to be reminded that they are no smarter sometimes than the people who work for them and most particularly they don't like to be reminded of this in politics.

The Once Over

By H. I. Phillips

Death on United Nations is threatened and epitaph could read:

Here lies U.N.—
Alas, alack!
Too many knives
Stuck in its back.
II
Into the graveyard
Did it slip
Slaughtered by its
Own membership.

Russian policy of "a veto a day keeps progress away" mauled the organization, but nothing so shocked it as Nehru and Krishna Menon, who for years had expressed deep pain at violence, choosing Christmas season to cry "Over the top! and "On the double!" Reports of Krishna, his olive branch, preacher-robes and plastic wings gone, directing an invasion, and looking like an undernourished Napoleon, left free world gasping "Quick, the spirits fo ammonia."

Only a few days back Nehru had been with us talking like a prince of peace and expressing himself as foremost supporter of nonviolence. He seemed last man you'd ever expect to hear crying "Cut 'em off at the crossroads."

Grogginess of free world was increased when India's U.N. delegate declared Indian attacks were right, "charter or no charter, council or no council" and added "narrow minded references to legality under international law are meaningless because international laws were written by Europeans in a colonial atmosphere." (How defiant of U.N. can you get?)

It looks as if too many members were not diplomats seeking peace but acrobats rehearsing for a trampoline act at the old Palace. Uncle Sam once knew where he stood in UN but today he is victim of the "switcheroo," the false face and "The Twist" danced on an international scale. The U.S. can't even get an answer to "What time is it?" without a Russian veto. Happy New Year, but HOW?

BELGIUM TALKS of suing the U.N. for losses in Katanga. But all it might be able to get would be the earphones, mikes, lounge chairs, bar fixtures and ashtrays.

Mayor Wagner and his aides not only hung up their stockings but had pockets built into them. Administration rash of salary increases seemed to express slogan "The two-sleigh garage and a Santa in every office!"

Druggists in Washington argued that medicines were not costly considering fact per capita expenditure on tobacco was $37, on liquor, $54 and on medicine only $12. Yeah, but who can smoke a capsule or make a highball with a couple of pills?

Truck with $75,000 worth of liquor was stolen in New York. That's one way to get enough drinks for an office party of ten or twelve people.

California nudist camp has an art class in nude painting. You'd naturally think they could do it from memory.

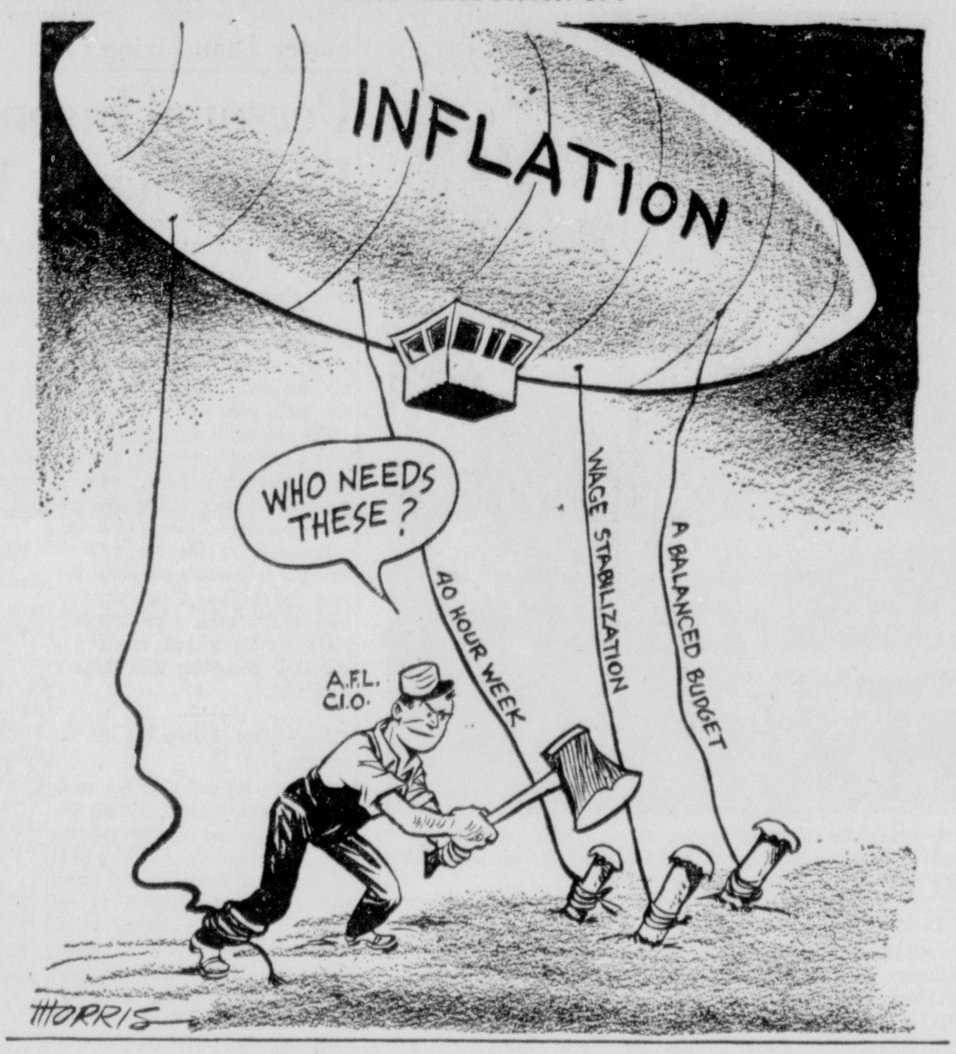

WE WONDER what the ghost of Mahatma Ghandi thinks of Nehru and Krishna Menon directing armed attacks?

Prominent educator says push-button teaching is coming, with machines instructing more students in shorter time. He predicts college year could be cut down to three and perhaps two years. Maybe we shall see the one-year college course with annual model changes, all emphasizing "compact" education.

Possibly it may mean diplomas through slot machines and settlement of football rivalries by computer.

Nehru will find it has to follow the Ghandi fasting routine. He now has to eat so many words.

The Adventurer!

Communists See Haven

By Victor Riesel

NEW YORK

There is a Christmas tree and a gay Merry Christmas sign in the foyer to the right of the staircase as you enter 23 W. 26 St. This might not be news these Yuletide days — except that you note as you walk in for an unguided tour of the small building that the Communist newspaper, The Worker, is to the left of the tree. One flight above it is the party's state section and on the top story is the national headquarters of the CPUSA.

Victor Riesel

All is serene. The staff of some 10 men and women are quite spoken, softly mysterious. They are not at all disturbed, now that all registration deadlines are past, that each party member and 50 of its national leaders face virtual life imprisonment and huge fines — if convicted and punished to the full extent of the law for not registering as agents of the Soviet Union. If convicted, I repeat.

-:-

THE PARTY headquarters does not seem over-impressed by the legal threat. Men and women pound pre-Stalin era typewriters. The five-trunk line switchboard keeps buzzing.

Why all the Communist calm? Why the invitations to return for exclusive interviews, should the visitor be interested?

Why? — because the party has destroyed all its records. It has ordered its people to meet less frequently and in smaller groups.

Its leaders are convinced that none of them ever will go to jail because of our laws, the most free and democratic of all lands.

And the inner operational chiefs, such as general secretary Gus Hall, labor control section director Irving Potash, and one Jack Stachel of ancient memory, are trying to guess which one of their 50 colleagues will be arrested and stand trial.

This would be a second trial. It should not be confused with the first court action scheduled by the Federal Judiciary for Feb. 1. At the first trial the Justice Department's Internal Security section will attempt to convict the Communist party itself for not registering as an agency of Moscow.

-:-

THIS INVOLVES only the party, and conviction would not send anyone to jail — just a heavy fine against the party's assets.

And judging from the condition of the cult-of-ersonality era desks one observes at party headquarters, the government could not raise enough money to satisfy more than a few pennies of any fine against the party.

Thus it is the second trial which will be the showpiece. In mid-January the government will decide which of the leaders to arrest for not registering the party. This indictment will be for a criminal action. Therefore the United States will have to prove beyond reason of any doubt that the Communist who have been arrested are guilty.

How does the government do this? How can the government establish the membership of the men on trial. How does the government prove that they were leaders at the time the law required the party and its leaders to register?

This will be virtually impossible without witnesses and documentation offered by the FBI. Therefore the identity of scores of FBI undercover agents will be exposed without any guarantee that they will have been sacrificed at least to obtain convictions.

-:-

THERE IS MORE at stake for the government's counter-intelligence system.

Some years ago the Supreme Court ruled that any defendant in a criminal action could not be confronted with adverse testimony, either by a witness or documents without making most of the federal secret background reports, interviews, etc. available to the man on trial.

In the case of the FBI this would mean offering the Communist party and its leaders the original confidential reports turned in by the undercover agents and the intelligence analyses of the basic FBI investigations.

This would do more than expose undercover FBI men. It would rip wide open the entire technique of FBI operations. Obviously the government has no intention of doing this.

This principle of access to government prosecution documents was set in the case of Clinton Jencks, a high official of the Mine, Mill and Smelter Workers Union. He was indicted and convicted in the lower courts but won reversal when the high bench ruled the government wrong in refusing to show him its secret data.

So, despite all the furor, it looks like the Communist party, U.S.A, and its leaders and members will be operating here for a long time.

President On The Go

By James Marlow

WASHINGTON

It's gotten so that if an American president stayed home he'd look like a snob.

In the past 11 months President Kennedy has received at least 30 visits from foreign heads of state and prime ministers, plus scores of ambassadors, and has made several foreign visits himself.

There are four good reasons for this back-and-forth business:

Truly fast travel; end of isolationism and new, close ties with other countries; abandonment of the idea that only a president's subordinates should dabble in diplomacy and Premier Khrushchev himself.

It would have taken President James Madison about 2½ months —allowing two weeks for a look-around—if he had wanted to visit the 1815 Congress of Vienna in those days of sail and coach.

That would be too long for any president to be away. But Kennedy could get to Vienna now in less than 11 hours by jet.

Once this country moved out of its historic isolation—with World War II—it began moving in the exact opposite direction. Now it is tied to nations around the world by military alliances and foreign aid.

This has created a community interest which this country never shared in before and makes it natural for all the big wigs involved to visit one another and talk shop.

In the long history of American isolationism it was routine for American presidents — with the brief exception of Wilson and until Franklin D. Roosevelt — to stay home and let their secretaries of state and ambassadors do the direct dealing with other governments.

There was no reason why they shouldn't have stayed home: the United States' policy was to be aloof.

The war ended that. The British and Russian foreign secretaries were nobodies in the wake of Prime Minister Winston Churchill and Joseph Stalin. Time was short, events momentous. So Roosevelt dealt with them in person.

He made some memorable trips abroad to do so. President Harry S. Truman began the foundation of military alliances and foreign aid which President Dwight D. Eisenhower inherited. This led in time to exchange of visits, but for one particular reason above all.

Premier Khrushchev made personal diplomacy a way of life for a head of government. He said the foreign ministers were messenger boys, who could handle the grimy details after the top men made agreements.

But, he said, only the top men could get things done. Eisenhower would have looked negative or self-conscious if he had refused to meet the Russian.

The fact that his summit meeting with Khrushchev produced no successes has been pointed to by those who want a return to the stodgy diplomacy of the past as a reason why presidents should stay home.

But that summit meeting can't be called a failure. It would have been amazing if, in one brief meeting, the world's ills could have been healed.

So far Kennedy, who met Khrushchev in Vienna last June, has not had to go into lengthy negotiations on any of his foreign trips. No doubt he will in time.

That he will continue to make visits abroad—given new times and new problems—seems inevitable.

Down Through The Years

From The Review Files

THIRTY YEARS AGO — Mrs. Isaac Riley of Ohio Ave. picked a red rose from an outside bush on Christmas Day.

Members of the East Liverpool municipal family, who were to assume duties New Year's Day, were guests at a dinner in the Travelers Hotel. Mayor Ralph C. Benedum and Safety - Service Director J. M. Moore were the hosts.

TWENTY YEARS AGO — Six homes in the Kent St. area of East End were without water as the city rushed repairs on a four-inch main that broke on the Pennsylvania Ave. Hill Rd.

Mrs. Mary Devon was named commander of the Navy Mothers Club.

Charles Horton and Miss Moira Gauron received a prize for waltzing at a semi-formal dance given by the Senior division of the Rosa Mystica Sodality of St. Aloysius Catholic Church.

TEN YEARS AGO — A crash on Routes 7 and 30, near the Substation, demolished a steel-laden tractor-trailer and a Marine sergeant's auto, causing damage estimated at $9,000. There were no injuries, however.

Dr. John F. Steel, chief of the Lisbon Volunteer Fire Department for 47 years, resigned.

Peace Without War?

By David Lawrence

West Needs Leverage In Dealing With Reds

"Peace on earth" — nearly everybody wants it. "Good will toward men" — almost all the peoples of the world feel it toward one another. Then what's wrong? Why is war threatened despite the innate desires of peoples?

David Lawrence

These questions have never been satisfactorily answered since the Caesars of yesterday marched out of their native lands to conquer other lands. Nor have they been answered in the modern world of the Hitlers and the Stalins.

Illusions still persist — that somehow by personal conferences between monarchs or heads of states Utopia can be achieved, or at least war prevented. But these talks largely have proved fruitless, because the approach is to an unmoral dictatorship that threatens its adversary from a position of strength and believes he either will not fight or has too much at stake to risk a fight.

If one party has no leverage when two sides "negotiate," then the victory must go always to the bully and the bluffer.

Today the concept that the West can lead from strength is discounted by the knowledge in Moscow, for instance, that the West is disunited and that America will not "go it alone" in a military sense.

The Soviets doubtless feel they do not need to attack — that they need only to threaten, and eventually they will have their way.

IT IS TRUE that at West Berlin there has been a show of military force by the West that has caused the communists at least to hesitate to provoke a large conflict.

Meanwhile, the Communists have pressed their "cold war" in other areas. They probably were back of India's seizure of Goa. Krishna Menon, India's minister of defense, is known to be very close to the Communists. In U.N. meetings he invariably takes the Communist side.

He has a strange and unexplained influence over Nehru. He doubtless persuaded Nehru that conquest of Goa is important to India's prestige.

Poor Nehru! He said in a speech that it was "surprising" that friendly countries like Britain and the United States should have been angry over Goa. Such naivete by the head of the government of India, who recently returned from a visit with President Kennedy at the White House, seems incredible.

"Some of their (Western) newspapers," said Nehru, "called us hypocrites. India will not reply to them in anger. Perhaps they saw things from a different prespective."

True, indeed, there's a different "perspective" in the Western world — a perspective of morality and a belief that the commandment, "thou shalt not steal," is ingrained in the moral philosophy of every religion of the world,including the Moslem faith.

How is the United States to assert its leadership in the face of India's theft of Goa and Indonesia's threat to steal Dutch New Guinea?

What leverage can the West mobilize to impress Moscow? Is military force—which could mean nuclear force—the only answer?

SOONER OR LATER Western diplomacy, which relies on talk and more talk, negotiations and more negotiations, will have to find another source of strength in addition to military force.

This could be based on a right long granted by international law —the right to withhold trade from an enemy.

The principle can be applied to a "cold war" as well as it has been to a "hot war."

If the free nations of the world decided to cut off all diplomatic, financial and economic relations with the Communists and also to "quarantine" — as President Franklin D. Roosevelt used the word—all those nations, whether in Latin America or Africa or Asia, which continue to allow Communist agents and Communist money to enter their domain, then there would be a powerful leverage in dealing with Moscow.

The policy needs merely to be organized by the West into a definite plan and laid down at the conference table as a weapon to be used only if the Soviet government doesn't stop threatening the peace of the world.

Then the Berlin problem and the troubles with Communist intrigue in the Congo, in South Vietnam and Laos would soon come under control. The Soviets cannot live in isolation.

But to confront the Soviets with such a program in secret would be of little avail.

It needs full disclosure to the peoples of the world so that they may know all about it and lend their moral force to the support of a real program for peace.

Whump!

By Truman Twill

I am going to hate to see another football season end, if it ever does. By the time the last post-season games are played, it is only a few weeks until pre-season practice. And when that's over, it's only a few months until the boys square away for early fall practice, before the real thing begins all over again.

During the actual season, running from September through December, football gives millions of us something to talk about. It's fruitful.

With the possible exception of basketball, it engages more minds more intensively than anything we do in this republic.

It shows what Americans can do when they put their minds to it and when all of us are older and bright-eyed children stand in front of us and demand to know what we did that was outstanding, we can reply with gutty conviction, "We invented big-time football."

Recovered From Slump

Steel Industry Finished 1961 At Moderate Pace

By W. A. SWARTWORTH

PITTSBURGH (AP) -- Recovering from a sharp slump, the steel industry in 1961 gradually picked up market strength and finished the year at a moderate production pace.

Labor troubles in the auto industry, followed by less-than-expected orders from this No. 1 customer, doomed hopes of a big surge in the fourth quarter.

But steel demand on other fronts generally held firm and took up part of the slack.

A controversy over prices and labor-management sparring preliminary to 1962 contract talks figured prominently in the steel picture.

Unemployment due to technological advances continued to be a problem, even though over-all employment improved in the second half.

The outlook for 1962 is clouded because of the forthcoming labor negotiations. Steelmen expect a good year, but a strike of any duration could upset the forecasts.

For the first six months at least, it is anticipated that demand will be sustained at high levels as steel users build inventories against a possible midyear work stoppage.

The basic steel industry entered 1961 operating below 50 per cent of estimated capacity. It wasn't until April that the recession, born in the summer of 1960, definitely ended.

In the final week that month the nation's mills melted 1.85 million net tons of steel, operating at about 65 per cent.

Production see-sawed the remainder of the year, largely in the 70-75 per cent range. Output hit 2.13 million tons—about a 75 per cent rate—in the last week of September. This was the most for any week since May 1960.

With final statistics yet to be reckoned, it appeared total 1961 production would fall just shy of the 1960 mark of 99.28 million tons—sixth best year in steel's history.

During 1961, industry leaders repeatedly stated a need for higher prices to offset increased employment costs. But they held the line—for the third straight year—under government and competitive pressures.

Early in September, President Kennedy appealed for steel price stability as a hedge against inflation.

Later, prices of aluminum—a major competitor—dropped one to two cents a pound.

Competition from other materials—plastics, concrete, glass—and foreign steelmakers also played a part in the decision to stand pat on prices.

The industry last raised prices an average of $4.50 a ton in 1958. Since then members of the United Steelworkers have received two contract wage hikes totaling 14 to 23 cents an hour.

If prices remain steady, company negotiators will have a strong talking point in bargaining with the USW for new contracts to replace the ones expiring June 30.

Just what the union will seek hasn't been spelled out. One important issue will be job security.

David J. McDonald, USW president, feels the best remedy for technological displacement of Steelworkers is a shorter work week—with no reduction in pay.

AGE OF CONTRAST. The sharp contrast of old and new in Formosa today is vividly demonstrated by this ox-cart driver hauling old iron pipes to a steel plant in Kaohsiung. The scrap iron is melted down and used for new steel products made in the plant. Kaohsiung is Formosa's main port and one of the island's main industrial centers.

light fall this morning. That community also had some snow last night.

It began to fall here at midmorning, starting to whiten the countryside but melting on downtown streets.

With the temperature slated to drop to 20 to 24 tonight, the cold will cut off the snow and produce only flurries, which also are expected tomorrow with blustery winds.

Temperatures were to fall to 33 to 36 degrees by this afternoon before the arrival of the new cold. The downtown had a fairly mild low of 39 degrees this morning.

The fresh surge of icy air was spreading across snow - covered regions in the Midwest as freezing weather hit areas in northern Florida for the third straight morning. Temperatures moderated in southern Florida.

The frigid air in the northern Midwest, fanned by strong northwesterly winds, extended from the extreme northern Plains to western Lake Superior.

It headed east and southward into other parts of the midwest, the lower Ohio Valley and upper Great Lakes region. It was -9 in International Falls, Minn., and -6 in Minneapolis with sub-zero readings in the Dakotas.

Readings were in the teens from the Rockies and other sections of the northern Plains into the western upper Great Lakes region.

ner of New York City is expected to play a major role in selecting the party's nominee and may even decide to make the race himself.

Gov. Nelson A. Rockefeller, mentioned as a possible Republican presidential nominee in 1964, has said he will seek another four-year term as governor.

Alford's announcement cleared some smoke from Arkansas' political scene.

Three-way jockeying for two jobs has been anticipated. Sen. J. W. Fulbright, chairman of the Senate Foreign Relations Committee, already has announced his candidacy for another six-year term. Alford, a doctor, previously said he would seek the governorship if Gov. Orval E. Faubus challenged Fulbright in the Democratic primary.

THE SHERIFF, Miller and Wellman used flashlights to follow Masterson's circuitous trail through fields and woods until it emerged on Route 7 south of Rogers.

Then the sheriff and chief deputy got into a cruiser and overtook Masterson. They said he was completely worn out and offered no resistance. They found a .38-caliber revolver in his coat pocket.

Six pairs of gloves in his possession appeared to be the only loot. Miller said the burglar gained entrance to the mill by prying a hasp off a sliding door.

Recovered From Slump

Steel Industry Finished 1961 At Moderate Pace

By W. A. SWARTWORTH

PITTSBURGH (AP) -- Recovering from a sharp slump, the steel industry in 1961 gradually picked up market strength and finished the year at a moderate production pace.

Labor troubles in the auto industry, followed by less-than-expected orders from this No. 1 customer, doomed hopes of a big surge in the fourth quarter.

But steel demand on other fronts generally held firm and took up part of the slack.

A controversy over prices and labor-management sparring preliminary to 1962 contract talks figured prominently in the steel picture.

Unemployment due to technological advances continued to be a problem, even though over-all employment improved in the second half.

The outlook for 1962 is clouded because of the forthcoming labor negotiations. Steelmen expect a good year, but a strike of any duration could upset the forecasts.

For the first six months at least, it is anticipated that demand will be sustained at high levels as steel users build inventories against a possible midyear work stoppage.

The basic steel industry entered 1961 operating below 50 per cent of estimated capacity. It wasn't until April that the recession, born in the summer of 1960, definitely ended.

In the final week that month the nation's mills melted 1.85 million net tons of steel, operating at about 65 per cent.

Production see-sawed the remainder of the year, largely in the 70-75 per cent range. Output hit 2.13 million tons—about a 75 per cent rate—in the last week of September. This was the most for any week since May 1960.

With final statistics yet to be reckoned, it appeared total 1961 production would fall just shy of the 1960 mark of 99.28 million tons—sixth best year in steel's history.

During 1961, industry leaders repeatedly stated a need for higher prices to offset increased employment costs. But they held the line—for the third straight year—under government and competitive pressures.

Early in September, President Kennedy appealed for steel price stability as a hedge against inflation.

Later, prices of aluminum—a major competitor—dropped one to two cents a pound.

Competition from other materials—plastics, concrete, glass—and foreign steelmakers also played a part in the decision to stand pat on prices.

The industry last raised prices an average of $4.50 a ton in 1958. Since then members of the United Steelworkers have received two contract wage hikes totaling 14 to 23 cents an hour.

If prices remain steady, company negotiators will have a strong talking point in bargaining with the USW for new contracts to replace the ones expiring June 30.

Just what the union will seek hasn't been spelled out. One important issue will be job security.

David J. McDonald, USW president, feels the best remedy for technological displacement of Steelworkers is a shorter work week—with no reduction in pay.

AGE OF CONTRAST. The sharp contrast of old and new in Formosa today is vividly demonstrated by this ox-cart driver hauling old iron pipes to a steel plant in Kaohsiung. The scrap iron is melted down and used for new steel products made in the plant. Kaohsiung is Formosa's main port and one of the island's main industrial centers.

light fall this morning. That community also had some snow last night.

It began to fall here at midmorning, starting to whiten the countryside but melting on downtown streets.

With the temperature slated to drop to 20 to 24 tonight, the cold will cut off the snow and produce only flurries, which also are expected tomorrow with blustery winds.

Temperatures were to fall to 33 to 36 degrees by this afternoon before the arrival of the new cold. The downtown had a fairly mild low of 39 degrees this morning.

The fresh surge of icy air was spreading across snow - covered regions in the Midwest as freezing weather hit areas in northern Florida for the third straight morning. Temperatures moderated in southern Florida.

The frigid air in the northern Midwest, fanned by strong northwesterly winds, extended from the extreme northern Plains to western Lake Superior.

It headed east and southward into other parts of the midwest, the lower Ohio Valley and upper Great Lakes region. It was -9 in International Falls, Minn., and -6 in Minneapolis with sub-zero readings in the Dakotas.

Readings were in the teens from the Rockies and other sections of the northern Plains into the western upper Great Lakes region.

Chief Cornelius also announced the suspension of Paul Spence, a member of the detective division, for another matter.

The clothes line was in three lengths — one 12 to 15 feet long and the others each about six feet.

Chief Radeschi said discovery of the items in the isolated spot indicates the robbery was perpetrated by East Liverpool persons or residents very familiary with the West End area. No one except a resident of long standing or a native would be familiar with the isolated location, he pointed out.

Confined To Egypt

Nasser's Domain Back Where It First Started

CAIRO (AP)—President Gamal Abdel Nasser's domain is back where it started—confined to Egypt—following severance of the loose federation that joined the little Arabian Peninsula kingdom of Yemen to the United Arab Republic.

Nasser broke the tie with Yemen Tuesday night, apparently because of the opposition of Yemen's feudal ruler, the Imam Ahmed, to Nasser's accelerating program to convert the U.A.R. to socialism.

Yemeni exiles in Beirut predicted the break with Nasser might touch off a revolution in their homeland that would unseat the imam, one of the world's last absolute monarchs.

The two countries had been linked in the United Arab States, a loose federation formed a month after the proclamation of the U.A.R. joining Egypt and Syria in March 1958.

Syria broke out of the U.A.R. last September, but Nasser's government retained the name that symbolizes Nasser's thwarted dream of a unified Arab world.

The statement announcing the break with Yemen said the two governments had nothing in common "to make the federation between them an effective political instrument able to contribute positively in strengthening the Arab struggle."

In posing as the symbol of the new wave in the Middle East, Nasser could hardly afford to remain tied to the feudal Red Sea monarch, who published a poem attacking Nasser's Arab socialism after the break with Syria.

The association between Nasser and the imam—theoretically co-presidents in the UAS—never approached the working relationship that Nasser had with Syria. It was a limited association in defense, cultural and economic affairs. The U.A.R. bore most of the cost.

School Burglars Rifle Telephone, Search Offices

Burglars ransacked three offices at Westgate School Tuesday night or early today and ripped a pay telephone from the wall, but a few coins apparently comprised their entire loot, police reported.

The school's general office, cafeteria office and shop office were ransacked. A pane of glass was broken to force entry to the main office. Contents of desk drawers were scattered, but nothing was taken.

In the shop office, the intruders found two hammers and a screw driver which they used to pry a pay telephone off the wall in the second - floor hall. Then it was taken to the general office and ripped apart. But an Ohio Bell Telephone Co. employe said there was little — if any — money in the coin box because the school has been closed for the holiday.

In the teachers' diningroom, the intruders scattered a quantity of sugar on the floor. The entry was made sometime between 12:30 p.m. yesterday and 6:37 this morning, police said. Entry was gained by breaking a pane of glass in the arts and crafts room and then reaching through the opening to manipulate the window catch.

School Burglars Rifle Telephone, Search Offices

Burglars ransacked three offices at Westgate School Tuesday night or early today and ripped a pay telephone from the wall, but a few coins apparently comprised their entire loot, police reported.

The school's general office, cafeteria office and shop office were ransacked. A pane of glass was broken to force entry to the main office. Contents of desk drawers were scattered, but nothing was taken.

In the shop office, the intruders found two hammers and a screw driver which they used to pry a pay telephone off the wall in the second - floor hall. Then it was taken to the general office and ripped apart. But an Ohio Bell Telephone Co. employe said there was little — if any — money in the coin box because the school has been closed for the holiday.

In the teachers' diningroom, the intruders scattered a quantity of sugar on the floor. The entry was made sometime between 12:30 p.m. yesterday and 6:37 this morning, police said. Entry was gained by breaking a pane of glass in the arts and crafts room and then reaching through the opening to manipulate the window catch.

Farm Receipts Reported Up 2.5% For This Year

By OVID A. MARTIN

WASHINGTON (AP)—The Agriculture Department report that farmers' receipts for their products during the first 11 months of this year were about 2.5 per cent above the like period last year.

Total cash receipts were about $31,275,000,000, compared with $30.5 billion in the like period last year.

Officials said these figures were helping to bear out earlier forecasts that net farm income—the amount left after payment for production costs—would be about $1 billion over last year's figure of $11.7 billion. Helping to boost net income will be increased by government payments under land retirement programs.

WASHINGTON (AP)—The Agriculture Department says red meat production in the first quarter of 1962 is expected to be slightly above the first quarter of this year.

A marketing report said prices of meat animals are likely to remain steady or slightly higher than the levels of mid-December, but will average below those of last year. More beef cattle is on feed for the slaughter market than a year ago and hog production and slaughter are running above year-ago levels.

The report said a strong price rise for sheep and lambs from early December levels is likely in coming months, reflecting a smaller number of these animals on farms.

WASHINGTON (AP)—The Government says in recent years U.S. farm surpluses have made up about two-thirds of the U.S. government's gross non-military assistance to foreign countries.

In some cases, these surpluses were paid for with foreign currencies, which in turn helped finance economic development abroad.

An Agriculture Department study shows that since 1954, 11 countries each have received imports of U.S. farm products in excess of $150 million. Total aid to these countries during the past six years amounted to $7.8 billion, or 57 per cent of such aid to all countries.

These 11 countries are Korea, India, Pakistan, Turkey, Spain, Yugoslavia, Poland, Egypt and Syria, Brazil, Israel and Indonesia.

Killed 'More Than He Could Count'

Al Jennings, Self-Styled Badman, Claimed At 98

TARZANA, Calif. (AP)—Alfonso Jackson (Al) Jennings, train robber, ex-convict, lawyer, lecturer, evangelist, politician, movie celebrity and chicken rancher who hated killing chickens, is dead at 98.

The self-styled bantam badman from the Oklahoma badlands died Tuesday with his boots off in his tree-shaded white frame house.

His nephew, Tillman V. Eggleston, said Al had been despondent since the recent death of his wife Maude, 81, and "was suffering the illnesses of old age."

Despite Jennings' death, the controversy he created still lives.

Was he really a desperado of the Jesse James or Dalton gang caliber? Or was tiny Al, only a lick and a spit over 5 feet tall, just a onetime loser, a luckless train robber, who cashed in on a legend he embroidered for naive movie folks in later years?

Al said he was once a horse thief and declared: "Some of the finest men I ever knew were horse thieves." He also claimed he killed more men than he could count—all in self-defense.

But author Stuart Lake, Western scholar and biographer of Wyatt Earp, says with a bit of scorn: "There's no record of Al ever killing anyone."

Al said he was a feared outlaw and train robber in the 1890s, terrorizing a score of trains in Oklahoma, Texas, Arkansas and Kansas.

The record shows Jennings was convicted in 1895 for robbing a Rock Island train in Oklahoma, sentenced to life imprisonment, paroled after five years and pardoned in 1907 by President Theodore Roosevelt.

Lake says of that one proven train robbery: "The gang netted only about three bucks apiece. A posse found out they were holed up at a ranch house and came after 'em. Al was so scared he couldn't pull the trigger. They took 'em all away to prison, like taking candy from a baby."

Al Jennings was born in Tazewell County, Va., and left home at 11 because his father killed his pet squirrel—"I could always kill a man without batting an eye but I couldn't stand to see an animal harmed," Al once said.

He was admitted to the bar in Comanche County, Kan., in 1884, moved to El Reno, Okla., and was elected county attorney in 1892.

After imprisonment and release, he became a lecturer, then an evangelist and ran for governor of Oklahoma in 1914.

Jennings came to California in 1915—and ultimately became an advisor to movie-makers on Western folklore.

Dear Friends,

In time of need you would not hesitate to ask a good neighbor for certain favors. We want you to feel the same toward us. So many things crowd in upon a family when death comes to the home that a neighborly, personal-interest service is often needed. We try to meet such needs, not merely in a professional way, but just as a kindly neighbor would do.

Respectfully,

Woman Is Dead, Husband Critical After Shooting

DAYTON, Ohio (AP) — A 40-year-old Fairborn woman is dead and her husband was in critical condition, the result of a shooting, but police have been unable to determine who pulled the trigger.

Mrs. Ruby Jane Kindred died of two bullet wounds a few minutes after arriving at Wright-Patterson Air Force Base Hospital Tuesday. Her husband, John, 42, was in critical condition with a bullet wound in his right temple.

Police said when they arrived at the couple's home, the victims were lying side by side on the floor of their bedroom, a .22 caliber pistol between them.

The couple's 17-year-old daughter, Linda, was in the kitchen at the time of the shooting. They also have a son, Phil, 20, of Xenia.

$25,000 Bond Set On Murder Charge

LIMA, Ohio (AP)—Cary Smith, 28, of Lima pleaded innocent Tuesday to a charge of second-degree murder and was held on $25,000 bond.

Smith, arrested at a Cincinnati roadblock, is charged in the fatal shooting of Eddie Doe, 28, in Lima early Sunday morning. Witnesses said Doe fired the first shot during an argument at a party.

Sharecroppers Due Help From Freedom Units

CINCINNATI (AP) — Officials of Operation Freedom say two groups of three members each plan trips to Haywood and Fayette counties in Tennessee to aid Negro sharecroppers.

A spokesman said Tuesday night the trips were to start from Columbus, Ohio and Saginaw, Mich., with loads of clothing and supplies for sharecroppers who expect to lose their jobs.

The spokesman said the six members will also seek to collect loans by the organization to Negro sharecroppers who unexpectedly lost their farms and homes last year, so the money can be loaned anew to others in similar straits.

Civil rights groups contended the sharecroppers were forced out last year because of a move by Negroes to register to vote. Landowners said reduced cotton quotas and more mechanization were the reasons.

The group making the trip from Columbus were identified as Ohio State University students Jack McKart, Hamilton; Carter Mehl, Akron, and Bill Whittaker, Columbus.

The Rev. Maurice McCrackin of Cincinnati, treasurer of the group, was on a similar trip when he was arrested last month in Brownsville, Tenn., on a charge of loitering with intent to peep.

Woman Is Dead, Husband Critical After Shooting

DAYTON, Ohio (AP) — A 40-year-old Fairborn woman is dead and her husband was in critical condition, the result of a shooting, but police have been unable to determine who pulled the trigger.

Mrs. Ruby Jane Kindred died of two bullet wounds a few minutes after arriving at Wright-Patterson Air Force Base Hospital Tuesday. Her husband, John, 42, was in critical condition with a bullet wound in his right temple.

Police said when they arrived at the couple's home, the victims were lying side by side on the floor of their bedroom, a .22 caliber pistol between them.

The couple's 17-year-old daughter, Linda, was in the kitchen at the time of the shooting. They also have a son, Phil, 20, of Xenia.

$25,000 Bond Set On Murder Charge

LIMA, Ohio (AP)—Cary Smith, 28, of Lima pleaded innocent Tuesday to a charge of second-degree murder and was held on $25,000 bond.

Smith, arrested at a Cincinnati roadblock, is charged in the fatal shooting of Eddie Doe, 28, in Lima early Sunday morning. Witnesses said Doe fired the first shot during an argument at a party.

Killed 'More Than He Could Count'

Al Jennings, Self-Styled Badman, Claimed At 98

TARZANA, Calif. (AP)—Alfonso Jackson (Al) Jennings, train robber, ex-convict, lawyer, lecturer, evangelist, politician, movie celebrity and chicken rancher who hated killing chickens, is dead at 98.

The self-styled bantam badman from the Oklahoma badlands died Tuesday with his boots off in his tree-shaded white frame house.

His nephew, Tillman V. Eggleston, said Al had been despondent since the recent death of his wife Maude, 81, and "was suffering the illnesses of old age."

Despite Jennings' death, the controversy he created still lives.

Was he really a desperado of the Jesse James or Dalton gang caliber? Or was tiny Al, only a lick and a spit over 5 feet tall, just a onetime loser, a luckless train robber, who cashed in on a legend he embroidered for naive movie folksin later years?

Al said he was once a horse thief and declared: "Some of the finest men I ever knew were horse thieves." He also claimed he killed more men than he could count—all in self-defense.

But author Stuart Lake, Western scholar and biographer of Wyatt Earp, says with a bit of scorn: "There's no record of Al ever killing anyone."

Al said he was a feared outlaw and train robber in the 1890s, terrorizing a score of trains in Oklahoma, Texas, Arkansas and Kansas.

The record shows Jennings was convicted in 1895 for robbing a Rock Island train in Oklahoma, sentenced to life imprisonment, paroled after five years and pardoned in 1907 by President Theodore Roosevelt.

Lake says of that one proven train robbery: "The gang netted only about three bucks apiece. A posse found out they were holed up at a ranch house and came after 'em. Al was so scared he couldn't pull the trigger. They took 'em all away to prison, like taking candy from a baby."

Al Jennings was born in Tazewell County, Va., and left home at 11 because his father killed his pet squirrel—"I could always kill a man without batting an eye but I couldn't stand to see an animal harmed," Al once said.

He was admitted to the bar in Comanche County, Kan., in 1884, moved to El Reno, Okla., and was elected county attorney in 1892.

After imprisonment and release, he became a lecturer, then an evangelist and ran for governor of Oklahoma in 1914.

Jennings came to California in 1915—and ultimately became an advisor to movie-makers on Western folklore.

Sharecroppers Due Help From Freedom Units

CINCINNATI (AP) — Officials of Operation Freedom say two groups of three members each plan trips to Haywood and Fayette counties in Tennessee to aid Negro sharecroppers.

A spokesman said Tuesday night the trips were to start from Columbus, Ohio and Saginaw, Mich., with loads of clothing and supplies for sharecroppers who expect to lose their jobs.

The spokesman said the six members will also seek to collect loans by the organization to Negro sharecroppers who unexpectedly lost their farms and homes last year, so the money can be loaned anew to others in similar straits.

Civil rights groups contended the sharecroppers were forced out last year because of a move by Negroes to register to vote. Landowners said reduced cotton quotas and more mechanization were the reasons.

The group making the trip from Columbus were identified as Ohio State University students Jack McKart, Hamilton; Carter Mehl, Akron, and Bill Whittaker, Columbus.

The Rev. Maurice McCrackin of Cincinnati, treasurer of the group, was on a similar trip when he was arrested last month in Brownsville, Tenn., on a charge of loitering with intent to peep.

2 Killed, 2 Injured In 2-Car Collision

ERIE, Pa. (AP)—Martin Nurmi, 37, of Conneaut, Ohio, was killed in a two-car crash on Route 5 about 15 miles west of here near Girard Tuesday.

Robert Golden, 16, of Lake City, Pa., died from injuries about two hours after the crash. Golden's mother and brother were injured.

Dear Friends,

In time of need you would not hesitate to ask a good neighbor for certain favors. We want you to feel the same toward us. So many things crowd in upon a family when death comes to the home that a neighborly, personal-interest service is often needed. We try to meet such needs, not merely in a professional way, but just as a kindly neighbor would do.

Respectfully,

Harry L. Martin

Youth Gives Up On Charges Of Intent To Kill

Jean L. Gregory Becomes Elmer A. Pritchett's Bride

MRS. E. A. PRITCHETT
Her Nuptials Held On Dec. 17.

Miss Jean Louise Gregory carried a cascade of white roses on her mother's Eastern Star Bible when she became the bride of Elmer Archer Pritchett the afternoon of Dec. 17 at 2:30 o'clock at the Westminster United Presbyterian Church of Chester.

The bride is the daughter of Mrs. Harold D. Gregory, 602 Louisiana Ave., Chester, and the late Mr. Gregory, and her husband's parents are Mr. and Mrs. Elmer E. Pritchett of 1st St., Chester.

The Rev. William L. Claghorn, pastor, officiated for the double-ring ceremony before an altar banked with ferns, palms and seven-branch candelabra. Satin bows marked the family pews. Mrs. Theodore Martin gave a half-hour of organ music. Mrs. Lee Copenhaver of Youngstown sang "O Perfect Love," "Whither Thou Goest" and "The Lord's Prayer."

The bride was given in marriage by her uncle, Norman Gregory. She wore a floor-length gown of embroidered white peau de soie designed with a bateau neckline and puffed sleeves.

Her elbow-length veil of imported silk illusion was held in place by a queen's crown of pearls and iridescent sequins. She observed the traditions and carried a sixpence in her shoes given by Miss Sara Thomas and Jack Horsley.

Miss Ann Elizabeth Gregory, sister of the bride, was maid of honor and wore a green Italian velveteen sheath, fashioned with a scooped neckline and elbow-length sleeves. She wore a matching velveteen Dior bow and carried a cascade bouquet of white carnations highlighted with holly.

Miss Lyla Sue Cosner of Fairmont, W. Va., was bridesmaid and was dressed identically to the maid of honor. They wore crystal necklaces, gifts of the bride.

Frederick Hubbard was best man. Ushers were Carlton Paugh of Shinnston, W. Va., and Edward Laughley and Paul Beggs. Robert Gregory, brother of the bride, was junior usher.

The mother of the bride chose an egg shell brocade dress with pine green accessories and the bridegroom's mother wore blue lace and satin with matching accessories. White carnation corsages complemented their attire.

A reception for 100 followed in the social rooms. A three - tier cake, topped with a miniature bridal couple, centered the buffet table decorated in a silver and green theme.

Aides were Miss Judy Ridinger, Miss Carolyn Brenneman, Miss Thea McSwegin, Miss Eunice Abrams and Mrs. John Boyd.

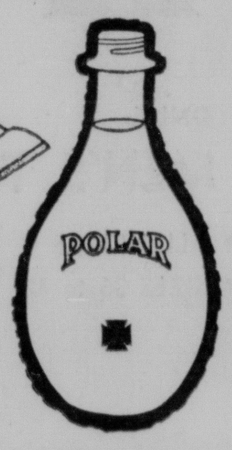

Out-of-town guests were from Wellsburg, Bridgeport, New Cumberland, Elkins, Morgantown, Wheeling, Cuyahoga Falls, Newell and East Liverpool.

For her honeymoon motor trip, the bride wore a blue wool sheath with black accessories and her bridal corsage.

The bride is a 1958 graduate of Chester High School and will graduate in June from West Virginia University with a degree in home economics. She is a member of Kappa Delta Sorority.

Her husband was graduated from the high school in 1957 and served six months in the Army Reserve at Ft. Knox, Ky. He will graduate in January with a bachelor of science degree in secondary education.

The newlyweds are residing at Morgantown.

Threat Of Transit, Power Strikes Hang Over New York

NEW YORK (AP)— The possibility of a New Year's Eve strike hung heavy today over this transit-keyed metropolis' bus and subway lines. Also threatening a Jan. 1 walkout were 9,000 electricians.

With negotiations in their customary last-week crisis stage, members of the Transport Workers Union were summoned to a strike meeting tonight.

Michael J. Quill, TWU international president, said employes of the Transit Authority and seven private bus lines would be asked to authorize a walkout if a contract dispute wasn't resolved.

Shorter work weeks are key issues in both strike threats. The transit union demands a four-day, 32-hour week. The electricians have asked a four-hour day instead of the presnt six-hour day.

A walkout of the International Brotherhood of Electrical Workers local would tie up work on millions of dollars worth of construction projects.

Quill and David L. Cole, chairman of the Transit Labor Board, were at odds on progress of the transit talks. Cole said bargainers were getting down to "brass tacks."; Quill said the talks were "rapidly breaking down."

Quill served notice that if he had a new contract agreement only with the authority—and not with the private lines—by 12:01 a.m. next Monday, the union would strike against both groups.

The only negotiations presently underway are those between the union and the authority. The private lines, which extended their expiring contracts from Dec. 1 to Jan. 1 with a pledge of retroactivity, traditionally wait for the TWU-TA talks to set the pattern.

Bomb-Proof Shelters Urged For Newly-Weds Of World

By FRANK CAREY
Associated Press Science Writer

DENVER, Colo. (AP)—Anthropologist Margaret Mead urges bomb proof shelters for the world's newlyweds—to assure continuance of the human race in the event of nuclear war.

Dr. Mead, of the American Museum of Natural History, offered the suggestion in a talk to the 128th meeting of the American Association for the Advancement of Science Tuesday.

"Let the United States propose," she suggested, "that the United Nations be asked to debate the feasibility of an internationally financed shelter system in which a cross-section of the most productive and highly motivated members of every country on every continent could be saved.

"Let us propose a program in which each country is assisted to build a blast-proof shelter sufficient to accommodate all of the people married in that country during a two week period (and that) during the first six months after marriage (they) spend two weeks in the shelter."

Addressing a special symposium on "Problems of Survival," Dr. Mead said such a shelter system for newlyweds would enable the survival of a group that "would be the most highly motivated to try to continue their lives together and to reproduce themselves."

Jean L. Gregory Becomes Elmer A. Pritchett's Bride

MRS. E. A. PRITCHETT
Her Nuptials Held On Dec. 17.

Miss Jean Louise Gregory carried a cascade of white roses on her mother's Eastern Star Bible when she became the bride of Elmer Archer Pritchett the afternoon of Dec. 17 at 2:30 o'clock at the Westminster United Presbyterian Church of Chester.

The bride is the daughter of Mrs. Harold D. Gregory, 602 Louisiana Ave., Chester, and the late Mr. Gregory, and her husband's parents are Mr. and Mrs. Elmer E. Pritchett of 1st St., Chester.

The Rev. William L. Claghorn, pastor, officiated for the double-ring ceremony before an altar banked with ferns, palms and seven-branch candelabra. Satin bows marked the family pews. Mrs. Theodore Martin gave a half-hour of organ music. Mrs. Lee Copenhaver of Youngstown sang "O Perfect Love," "Whither Thou Goest" and "The Lord's Prayer."

The bride was given in marriage by her uncle, Norman Gregory. She wore a floor-length gown of embroidered white peau de soie designed with a bateau neckline and puffed sleeves.

Her elbow-length veil of imported silk illusion was held in place by a queen's crown of pearls and iridescent sequins. She observed the traditions and carried a sixpence in her shoes given by Miss Sara Thomas and Jack Horsley.

Miss Ann Elizabeth Gregory, sister of the bride, was maid of honor and wore a green Italian velveteen sheath, fashioned with a scooped neckline and elbow-length sleeves. She wore a matching velveteen Dior bow and carried a cascade bouquet of white carnations highlighted with holly.

Miss Lyla Sue Cosner of Fairmont, W. Va., was bridesmaid and was dressed identically to the maid of honor. They wore crystal necklaces, gifts of the bride.

Frederick Hubbard was best man. Ushers were Carlton Paugh of Shinnston, W. Va., and Edward Laughley and Paul Beggs. Robert Gregory, brother of the bride, was junior usher.

The mother of the bride chose an egg shell brocade dress with pine green accessories and the bridegroom's mother wore blue lace and satin with matching accessories. White carnation corsages complemented their attire.

A reception for 100 followed in the social rooms. A three - tier cake, topped with a miniature bridal couple, centered the buffet table decorated in a silver and green theme.

Aides were Miss Judy Ridinger, Miss Carolyn Brenneman, Miss Thea McSwegin, Miss Eunice Abrams and Mrs. John Boyd.

Out-of-town guests were from Wellsburg, Bridgeport, New Cumberland, Elkins, Morgantown, Wheeling, Cuyahoga Falls, Newell and East Liverpool.

For her honeymoon motor trip, the bride wore a blue wool sheath with black accessories and her bridal corsage.

The bride is a 1958 graduate of Chester High School and will graduate in June from West Virginia University with a degree in home economics. She is a member of Kappa Delta Sorority.

Her husband was graduated from the high school in 1957 and served six months in the Army Reserve at Ft. Knox, Ky. He will graduate in January with a bachelor of science degree in secondary education.

The newlyweds are residing at Morgantown.

Threat Of Transit, Power Strikes Hang Over New York

NEW YORK (AP)— The possibility of a New Year's Eve strike hung heavy today over this transit-keyed metropolis' bus and subway lines. Also threatening a Jan. 1 walkout were 9,000 electricians.

With negotiations in their customary last-week crisis stage, members of the Transport Workers Union were summoned to a strike meeting tonight.

Michael J. Quill, TWU international president, said employes of the Transit Authority and seven private bus lines would be asked to authorize a walkout if a contract dispute wasn't resolved.

Shorter work weeks are key issues in both strike threats. The transit union demands a four-day, 32-hour week. The electricians have asked a four-hour day instead of the presnt six-hour day.

A walkout of the International Brotherhood of Electrical Workers local would tie up work on millions of dollars worth of construction projects.

Quill and David L. Cole, chairman of the Transit Labor Board, were at odds on progress of the transit talks. Cole said bargainers were getting down to "brass tacks."; Quill said the talks were "rapidly breaking down."

Quill served notice that if he had a new contract agreement only with the authority—and not with the private lines—by 12:01 a.m. next Monday, the union would strike against both groups.

The only negotiations presently underway are those between the union and the authority. The private lines, which extended their expiring contracts from Dec. 1 to Jan. 1 with a pledge of retroactivity, traditionally wait for the TWU-TA talks to set the pattern.

Bomb-Proof Shelters Urged For Newly-Weds Of World

By FRANK CAREY
Associated Press Science Writer

DENVER, Colo. (AP)—Anthropologist Margaret Mead urges bomb proof shelters for the world's newlyweds—to assure continuance of the human race in the event of nuclear war.

Dr. Mead, of the American Museum of Natural History, offered the suggestion in a talk to the 128th meeting of the American Association for the Advancement of Science Tuesday.

"Let the United States propose," she suggested, "that the United Nations be asked to debate the feasibility of an internationally financed shelter system in which a cross-section of the most productive and highly motivated members of every country on every continent could be saved.

"Let us propose a program in which each country is assisted to build a blast-proof shelter sufficient to accommodate all of the people married in that country during a two week period (and that) during the first six months after marriage (they) spend two weeks in the shelter."

Addressing a special symposium on "Problems of Survival," Dr. Mead said such a shelter system for newlyweds would enable the survival of a group that "would be the most highly motivated to try to continue their lives together and to reproduce themselves."

After School Chores Present Problem

Suppose you had two girls, seven and nine, who you require to do a certain number of jobs before they may go out to play. Suppose you are able to enforce this rule but the children fool around so long doing these jobs that it is too late to join the fun of their playmates. To complicate your problem, none of the other children may have to do chores. Perhaps their parents point to your children as ideal home helpers. This would make it harder for your children, as you can see.

Dr. Garry Meyers

A Pennsylvania mother of two girls, eight and six and a half, who has required their doing certain chores, writes:

—:—

"I FIND THAT my children, because they have to work, are being left out by the other children. All activities are well under way when they go out.

"Other parents point to my girls and say, 'See, they help their mother'—but they don't enforce action. The children don't appreciate comparisons. As a result my girls resent their tasks.

"This problem didn't exist when we lived out in the country alone. Now, they tend to procastinate so long that the time they have for play is practically nil."

This mother is right in requiring chores of her girls, even when their platmates have none. It might be desirable, however, for her to lessen or delay the assignments for a period of an hour or half-hour, when activities outside are at their height.

—:—

BUT THE MOTHER may suppose that if the girls are free then, she might have trouble getting them to do the chores later.

However, since she was able to enforce the rigid rule of their doing the chores before going out to play, she might let them choose to play for a definite length of time, if they consent to do the chores afterwards.

No doubt some of the playmates have come to her home while her daughters were doing chores.

She might have conspired with her girls to induce their playmates to help them with their chores so they might then have more time for play together.

—:—

WITH OUR OWN children, at like ages, we observed that they were very adroit and successful at winning their playmates' help with chores.

We also tried to work out ways in which the required regular chores did not interfere with a reasonable amount of fun with their playmates.

When our children would state that their playmates had few or no chores, we never argued, but quietly assured them that this was our way.

Killer Hunted In Death Of Minister, 70

BROOKLYN, Mich. (AP) — A slayer was hunted today in the death of a retired Methodist minister who was beaten with a hammer, bound with rope and then set afire in a room of his farm home.

The body of the Rev. Roy R. Decker, 70, of Tecumseh, Mich., was found beneath a smoldering blanket by firemen Tuesday. His hands were tied behind his back.

State police said the death "definitely was murder." They said they were looking for a suspect who fled in the minister's car.

The body was found in a bedroom of the two-story, frame farm home owned by the Rev. Mr. Decker. A ball-peen hammer was found near the charred body.

State Police Lt. Joseph Liebherr said that the minister was knocked unconscious with the hammer, bound and then doused with gasoline or kerosene and set afire.

The minister and his family moved to the farm home near Brooklyn about a year and a half ago, following his retirement as minister of Grace Methodist church in Meadville, Pa.

Discriminating Thief Takes New Yule Lights Set

A discriminating thief made off with a new set of outdoor Christmas lights from a Hoffman Estates home early Sunday morning, ignoring an old set on a tree nearby.

Mrs. Kenneth McIntosh, victim of the holiday thief, said the lights had been purchased recently for $5.25 as part of a matched set.

She discovered the lights missing from her outdoor tree Sunday morning after returning late from a trip to Akron.

The thief slashed the light cord leading to the socket instead of merely unplugging the cord.

Mrs. McIntosh said she will "ask no questions" if the lights are returned. She said she has extra sets of outdoor lights in her garage and would have given them to a needy person if asked.

America's Racial Issue Seen 'Disturbing' Africa

American influence in Africa is restrained in part by its own racial and political disturbances, a young Louisville student told the Rotary Club Tuesday in the Travelers Hotel.

Sam Speck Jr., who studied and traveled extensively in the chaotic continent for over a year under a Rotary Fellowship, told the club he was questioned many times by both educated and uneducated Africans of America's crime, corruption in government and juvenile delinquency.

He was told by an African physician in Nairobi that "you forfeit your potential leadership in Africa by your domestic racial policies." The theme was repeated at virtually all of the 40 Rotary Clubs he addressed during his visit, Speck said.

He reported growing animosity towards the U.S. was prevalent among both the "elite" or educated natives and the illiterates of the bush country.

America has made a "tremendous cultural impact" on Africa with its newspapers, magazines and "canned" television programs, Speck said. A recent decision by an African supreme court was based on the background of a similar decision in America, he added.

Speck declared there has been a tremendous development in Africa in a short period in transportation, communications, education, and medicine and architecture with whites leading the way.

Yet, grave tensions have been created in African society by the unwillingness to share with the natives, and reluctancy to allow them to purchase property or form labor unions, Speck asserted.

Job restrictions, also, have added to the friction, he added. "No matter how qualified a native may be, he is not allowed to rise above the labor class in some industry," Speck said.

He described Africa as a land of great contrast, with the natives still practicing witchcraft in one locality that has a modern medical center. He told of having seen natives armed with bow and arrow ride a bus, or emerge from a mud hut into a motor car.

"Africa is trying to leap tremendous hurdles in a little time," he said. "Africans now want an education."

Speck said the majority of the natives appear afraid of the yoke of Communism. "I cannot agree to the charge that African nationalism and communism are the same," he said.

The student said he stressed in his talks U.S. history and foreign policy in attempting to relieve antagonism and dispel claims that America is an "opportunistic" nation.

He hitch-hiked over 2,700 miles across the continent during vacations from the University of Rhodesia.

Speck returned two weeks ago and will resume studies at Harvard University under a Danforth Scholarship. He was graduated from Muskingum College in 1959.

Speck was introduced by Roger Hall, program chairman. The program was in connection with the club's international relations committee. Dr. R. Jay Kinsey, president, presided.

Greenawalt's Bid Cost $931

O. Earl Greenawalt's unsuccessful bid for the mayor's office in the Nov. 7 general election cost $931.42, according to a sworn statement of campaign expenditures filed with the County Election Board.

Greenawalt, the Republican nominee, lost to Mayor Bert H. Goodballet, Democrat, who was named to a second term.

In another local campaign expense report, the Trades and Labor Council reported it spent $255.60 in the drive against the city income tax, which was repealed. Filed by Joseph A. Winters, secretary, the report showed Trades Council spent $250 for legal service in connection with the initiative campaign and $5.60 for newspaper advertising.

The battle to switch Salem to a charter form of municipal government is not over, according to another campaign expense report, although the issue was rejected at the November election.

Lloyd Gordon, chairman, filed an expense statement for the Citizens for the Charter Committee, listing contributions of $525 and expenditures of $501.15. The balance of $23.85 will be "used for future advertising in promoting a new charter," Gordon's report said.

The expense statement showed the committee collected its $525 campaign fund from 47 contributors. Most of the individuals were credited with $10 gifts.

The charter committee's report was one of about half a dozen mailed last week but delayed in the Christmas rush and consequently not received at the Election Board's office until Tuesday morning. It was postmarked Thursday at 6 p.m. in Salem. The deadline for the reports was Friday at 4 p.m.

The Salem Men's Republican Club reported it collected $1,223.87 and spent the same amount. The report was signed by Wesley Houger, treasurer.

Contributions totaling $998 were received in "donations from 275 to 300 individuals," Houger said, without listing the names. He said another $225 was received from the Salem Women's Republican Club. The report was postmarked Friday at 11 a.m. It was received at the Election Board at 8:33 a.m. Tuesday.

Meanwhile, Henry L. Reese, unsuccessful Republican candidate for mayor of Salem, said his campaign cost $206.

Ohio Traffic Expected To Claim Another 22

COLUMBUS, Ohio (AP) — Although the Christmas holiday weekend traffic death toll climbed above the predicted 22 lives, the Department of Highway Safety says another 22 persons will perish on the state's highways during the coming New Year holiday period.

In a report to Gov. Michael V. DiSalle, Highway Safety Director J. Grant Keys reported that the Christmas death toll of 23 included 10 drivers, 10 passengers and 3 pedestrians.

Keys also pointed out that excessive speed figured in seven of the deaths, driving left of center was blamed for three fatalities and failure to yield the right of way claimed two lives. One drunk driver was listed among the causes.

Battalion Chief And 4 Others Are Injured In Fire

CINCINNATI (AP)—A battalion chief and four other persons were hurt late Tuesday night when fire swept a rooming house and apartment building near each other in northwest Cincinnati.

Police said Harley New, 36, a resident of one building, suffered back and head injuries when forced to jump 13 feet from a fire escape.

His wife, Estelle, 36, and two other women, were taken to a hospital for treatment of smoke inhalation.

The fires forced an estimated 40 occupants to flee their homes.

Battalion Chief Charles Bose was taken to a hospital for treatment of hand cuts.

The rooming house fire apparently started in a first floor hallway and flamed up to the third flood of the building, which contained 10 dwelling units.

The apartment house fire started in the basement, according to firefighters.

Department arson investigators were sent to the scene of the two fires, within a few blocks of each other. A department spokesman said there had been five similar fires in the same area in the last three weeks.

America's Racial Issue Seen 'Disturbing' Africa

Stretch-Bend Keeps Body Supple

No fountain of youth can compare with a supple, trim figure—minus a bay window or a girdle top roll. If we thought of simple exercises as helping to extend the prime of life — it wouldn't be so hard to take. Well, start thinking of exercise in that way, for stretching and bending movements do help to keep the body supple, and toned.

Ida Jean Kain

Climb a streamliner - ladder. Stand in easy posture, feet astride for balance, then stretch up leisurely with right arm. Make sure to start the upstretch with the lower abdominals so as to bring the entire midsection into the action.

Stretch up with left arm . . . r-e-a-c-h. Now, with both arms above head, stretch alternate arms skyward. . .every rung goes higher, higher. As Browning expressed it. . ."A man's reach should exceed his grasp or what's a heaven for?"

—:—

IN THE ABOVE stretch, the emphasis is on the lateral muscles which bound the silhouette at the sidelines. Shift the action so as to reach the frontline bracers. Stretching right arm up, move the right leg back, touching toes to floor—pull.

Center the pull through the middle. Hold this upstretch for a few seconds. . .holding helps to increase muscle tone. . .then release slowly. Ah-h. Stretch left arm upward, stepping back with left foot and p-u-l-l. Repeat a few times, until you feel pleasantly stretched.

Stretch is rewarding for little effort. It's a natural, for the muscles act against each other and stimulate the circulation. Muscle tone can be maintained fairly well with a regular stretch-bend routine.

If you're a bit rusty on muscle movements, perhaps you'd better ease into exercising. Once started, you will like to keep on. A test of the amount of exercise which is beneficial for you is this: How do you feel the following day . . .and the day after that?

You should feel better for having exercised. Undue tiredness or persistent stiffness is a sign you have overexercised. Also, exercise should help you to sleep better.

Restlessness can result from held-over tension. At the finish of an exercise session, shake your muscles. . .let yourself go. . .deliberately release muscle tensions.

—:—

IF YOU'RE up to it, finish with a siden-bend to whittle the waist. Standing, stretch arms overhead, fingers interlaced, palms up. Now stretch through the middle, and holding the upstretch, b-e-n-d sidewards. Hold.

Back to center, and bend to the opposite side. . .again holding. Easy does it, six to ten times alternating sides will do nicely. Make the movements slowly, keep them smooth.

Judge Has Busy Evening Before Vacation Trip

NEW CUMBERLAND — After a busy evening, Municipal Judge John D. Herron and family left today for Florida for a two - week vacation.

The squire fined four drivers a total of $80 and costs, meted out a $10 fine to a man charged with creating a breach of peace and continued two hearings.

Dr. James E. Fisher of New Cumberland posted $57.50 bond for a hearing Jan. 9 on a charge of disorderly conduct and being intoxicated in public. The charge was filed Sunday morning by police Chief William Webster.

Fined on charges of hazardous driving were Thomas Herron, 19, Dale Fryer, 19, of R.D. 1, and Wesley Gross, 19, of Pughtown, all $10 and costs, and Burl Speece, 22, of Weirton, $50 and costs for reckless driving.

Kurt Swan of New Cumberland obtained a warrant for the arrest of the three teen-age drivers.

Michael Swan of New Cumberland was fined $10 and costs on a charge of breach of peace on a warrant signed by Glenn Herron.

The squire continued until Jan. 12 a hearing for Kurt Swan on a charge of hazardous driving. The complaint was filed by Vera Herron.

Squire Herron, who also serves as Hancock County coroner, will return to his office Jan. 8. He is vacationing in Fort Myers.

Robbed Bank's Manager Hits Cut In Sheriff Funds

Charles E. Koch, vice president of the New Waterford Bank at New Waterford, which was robbed of over $16,000 Friday, today issued a public protest of the slash in funds slated for the Columbiana County sheriff's department.

County commissioners have ordered a 15 per cent slash in all departments to stay within 1962 revenues.

Koch ponited to the robbery of his bank, another robbery recently at New Kensington and the one at Glenmoor Christmas Eve, commenting "more can be expected if not enough funds are provided for adequate protection."

"This is one department that should escape the 15 per cent slash," Koch declared.

He pointed to the "efficiency of the department," which not only responded quickly to the bank robbery call but aided the FBI in questioning witnesses and setting up roadblocks in the county.

Koch appealed to citizens to contact commissioners, urging them not to cut the funds for the department.

Child Shaken As He Dashes Into Car Path

An 11-year-old East End boy was shaken up but apparently unhurt when he was knocked down by an auto Tuesday at 3:51 p.m. while crossing E. 3rd St. at Walnut St.

Donald Lee Lacy, son of Mr. and Mrs. John Lacy, 438 1st Ave., darted into the path of a 1959 sedan driven by Mrs. Pearl Morris, 42, of 427 5th St., Chester. The child was released after X-rays at City Hospital.

Mrs. Morris told police she was driving east on E. 3rd St. about 15 miles an hour when the boy stepped in front of her car while crossing at Walnut St. She said she applied the brakes, but the car skidded and struck the boy, knocking him to the pavement.

The boy told police he did not see Mrs. Morris' car until he was knocked down. A witness, John D. Steele, 314 Adolphus St., Chester, told police the Lacy youngster was one of two boys crossing the street at Walnut St.

The boys walked between halted autos in the westbound lane and then the Lacy boy stepped into the eastbound lane, where traffic was moving, he said. Patrolman Kent Garvey said he measured approximately 24 feet of light skid marks behind Mrs. Morris' auto.

The fender of an auto was smashed in a hit-skip accident Tuesday at 12:44 p.m. on Locust St. at Maple St., police said.

Frank E. Taylor, 128 E. 2nd St., told police he parked his 1950 club sedan on Locust St. and walked to a hardware store on Mulberry St. When he returned five minutes later, he found the right front fender had been smashed against the wheel, he said.

2-Car Crash Fatal

CANTON, Ohio (AP) — John H. Stockdale, 84, of North Canton was injured fatally in a two-car crash near the intersection of Ohio 43 and Schneider Road NW Tuesday. Two others were injured.

Fire

(Continued from Page One)

Lewis estimated the damage at $6,000 to the two-story frame home and $3,000 to the contents. The loss is covered by insurance.

The floors in three rooms and a hallway were burned out. Heavy damage also resulted to one of the interior walls downstairs and an exterior wall in the upper story.

The kitchen, hallway and a side room were completely gutted, firemen said. All the kitchen furniture and appliances were destroyed. Heavy smoke and heat damage resulted to the other furniture in the home.

At one time, the fire broke through an outside corner of the home. Lewis commented the "heat was terrific" when firemen first arrived. Ten responded to the call.

Firemen remained on the scene about 90 minutes, checking and extinguishing small blazes in the walls and petitions.

Out Of The Air

HAL HUMPHREY

The Annual '10 Worst'

Hal Humphrey

And now comes the announcement that hardly anybody has been waiting for—the results of Humphrey's fourth annual "10 Worst" TV Awards.

The 1961 competition for these unwelcome honors has been fierce, as usual. Also I am aware that the year isn't quite over. Rest assured that if any show or performer makes an all-out effort before Jan. 1, the awards committee (me) will see that he, she or it is rewarded in a special "Late-Late" category.

Meanwhile, my congratulations to the losers and condolences to the winners. And here they are!

WORST SITUATION COMEDY: It's been a big year for chimpanzees participating in our space program at Cape Canaveral, but three of their group (the Marquis Chimps) bombed out in a ridiculous series called "The Hathaway (ABC). Only other comedy series to come close was Wayne & Shuster in Jack Benny's summer replacement, "Holiday Lodge" (CBS).

WORST ADVENTURE SERIES: Lots of competition here, but "Follow the Sun" (ABC) wins out because more money and more talent have been wasted on it than on the short-lived "Acapulco" (NBC) or the barely alive "Straightaway" (ABC).

WORST HAM: Nikita Khrushchev almost nosed out Jack Paar here last year with his shoe-pounding routine on a U.N. telecast. This time, however, Paar has no peer for the prize. His ego has grown so large that the shade from it has almost turned Hugh Downs into a mushroom.

WORST SPECIAL IN OR OUT OF SERIES: Several contenders here, including "The Wonderful World of Toys" (NBC), "25 Years of Life" (NBC) and "The Sound of the '60s" (NBC). The last-named entry gets honors because of "Sounds" were mostly pipsqueaks, and produced by a man who should know better—Dore Schary.

WORST MUSICAL REVUE: Jane Powell and Hugh O'Brian headed the unfortunate cast in "Feathertop" (ABC), a messy, borning hour supposedly suggested by Nathaniel Hawthorne's short story.

WORST WHAT-IS-IT SERIES: You've heard of "whodunits." Now we're confronted with "what-is-its." "Window on Main Street," "Bob cummings Show" and "Ichabod and Me" all fall into this category, and all are on CBS. They're not comedy or crime, although there might be some debate about the latter. Anyway, the prize goes to Robert Young ("Window"), and apologies to the other two Roberts—Cummings and Sterling.

WORST QUIZ OR PANEL SHOW: Jackie Gleason might have been the winner, had he kept his "You're in the Picture" quizzer on CBS more than one week, but he chickened out and spent the next few weeks apologizing, drinking coffee and interviewing everyone from a chimpanzee to Bobby Darin. So the award goes to ever-lovable Bert Parks and his new "Yours for a Song" (ABC) clambake. Bert is so patronizing he should wear shoes on his knees, and the contestants should be sent to psychiatrists.

WORST CRIME SERIES: Newton Minow's "wasteland" reaches its roughest terrain here. "The Investigators" (CBS), "New Breed" (ABC) and "87th Precinct" (NBC) all have presented episodes which reached close to the nadir in sadism and pointlessness. "New Breed" wins for trying to be pompous about it all.

WORST WESTERN: Viewers finally got caught up with this type of fairy tale, but not before "Gunslinger" (CBS) and "Whispering Smith" (NBC) rode on the horizon early this year. Both were so corny and moth eaten that apparently even the kids wouldn't buy them. "Gunslinger" wins the draw.

WORST COMMERCIAL: Madison Avenue went very dramatic this year. I'm sure viewers have been thrilled by that blond who shampoos her hair as she stands on the steps of the Parthenon. Then there's that other gal who "steps up" from the valley of dirty, non-menthol smoke to the veritable heaven where people smoke her cigarette. But the trophy goes to those great actresses in the "Secret" commercials who prove that a dab of "secret" under each arm is the answer to most of our troubles.

There will be no banquet this year. Just pick up your "worsters" and file out to the right.

Arraignment Delayed In FHA Records Case

WHEELING, W. Va. (AP) — Arraignment of Bernard B. Templeton, one of several persons charged with falsifying records to obtain Federal Housing Administration loans, has been postponed to Jan. 10.

Templeton's case was continued after Federal Court Judge Charles F. Paul put two contractors on probation in the same case. The two—Roger Sterling, 43, of Wheeling and Joseph T. Coram, 38, of Glen Dale—had pleaded guilty.

In addition, Sterling was fined a total of $1,000, but no fine was assessed in Coram's case.

Templeton, 35, former vice president of the Union Federal Savings and Loan Association, had been missing between Oct. 4 and the time of his arrest at Columbus, Ohio, last week. He is free on $10,000 bond.

Area Marines Given Leaves

Upheavals Taking Place

Europe Common Market Changing Trade Picture

By GEOFFREY GOULD

WASHINGTON (AP) — Like a football game without a scorecard, the current welter of news about foreign trade, tariffs and the European Common Market can be a little confusing.

Great upheavals are taking place in world trade, and new forces are changing the map. They may affect millions of Americans, from the cotton farmer in southwest Arkansas to the man who puts spokes in the wheels in a New England bicycle factory.

The major factor that is changing old patterns of trade in the free world is the European Economic Community, or Common Market. Here is an attempt to provide a scorecard on the Common Market, with basic answers to basic questions:

Q. What is the Common Market?

A. It is an agreement between six European nations — France, West Germany, Italy, the Netherlands, Belgium and Luxembourg —to lower tariff barriers between each other over a period of years to the vanishing point. At the same time they are setting up a common external tariff to deal with the rest of the world as a unit.

Q. How is it doing?

A. It is doing rather well. The six nations are ahead of schedule in lowering their internal tariffs, and business is booming under the stimulus. So much so that Great Britain, which stood aloof from the Treaty of Rome, now wants in even though it would disrupt the British Commonwealth and cause other changes in the British way of life, such as converting its ancient currency system to a decimal system. Denmark, Ireland and Norway are likely to join too. Sweden, Austria and Switzerland would probably like to join, but must tread carefully to preserve their East-West nutrality.

Q. What does this mean to us in the United States?

A. It means that if we want to continue trading in the rich common market, we must negotiate a low external tariff for the Common Market countries. Proponents of liberalized foreign trade, with the Kennedy administration as a chief drumbeater, say we must be able to offer the Common Market reduced United States tariffs in return. This, in simplified terms, is what the big, bloody fight shaping up in Congress next year is about. Protectionist, or high tariff sentiment is strongly represented in Congress. Almost every congressman or senator has plants in his district that might be hurt by freer entry of foreign goods.

6 Cars Figure In Collisions

Six cars were damaged and a motorist was injured in three separate accidents Sunday in Wellsville, police said today.

Forrest Harris, 1036 Anderson Ave., was cited for driving without an operator's permit after his car struck a parked car owned by Walter Nelson, 707 Broadway, Wellsville, on Broadway near 7th St. Sunday at 1:40 a.m.

The Nelson car was pushed into another parked car owned by Ance Corsello, 711 Broadway, officers said.

Jay Taggart, 25, of 1027 Center St., Wellsville, was injured slightly when his car struck a parked car owned by Irene Dent, 927 Commerce St., in front of her home Sunday at 12:30 a.m.

Taggart was admitted to City Hospital for observation but later released. He has been cited for driving while under the influence of alcohol.

A car driven by Gene T. Gilbert of Boyd St., slid into the Acme Craft Ware building at the corner of 3rd and Lisbon Sts. Sunday morning at 10 a.m. Gilbert told officers he was traveling about 10 miles an hour.

Apple A Day And Gravity Are Medical News Items

By The Associated Press

An apple a day, life under high gravity and facial growth are items in the medical news:

Apple Medicine

An apple a day does seem to keep the doctor away.

At least, students eating two to three apples daily made far fewer calls at Michigan State University's Health Center for upper respiratory infections and tension-pressure complaints than non-apple eaters.

The threee-year study, started by the late Dr. Eugene H. Lucas, involved more than 1,300 apple eaters, compared with all the rest of the students.

The apple eaters made one-third fewer calls for upper respiratory infections than expected for the entire student body. They made only one-sixth as many calls because of tension or pressure phenomena, including pressure headaches, nervousness, and inability to concentrate.

As to why, investigators say perhaps the vitamin C content of apples was helpful, or a better balanced diet, or perhaps because of some tranquillizer in apples.

High Gravity Life

When and if man colonizes planets bigger than earth, he may find children a bit stunted in growth.

For these were the physical effects on mice living under gravity pull three to seven times than on the earth, report Dr. Charles C. Wunder and associates of the State University of Iowa. The bigger a planet is, the greater is its gravity.

The mice lived in cages spun by a centrifuge at speeds up to 5,000 revolutions per minute. In a few weeks, the animals adjust to the increased gravity. But they have small appetites, and in size become smaller than mice living under normal gravity.

Face Growth

The human face is slow in reaching full growth, reports Dr. Jagdish K. Bambha of Denver on the basis of X-ray studies.

By the time a child is nearly four years old, 90 per cent of the growth of the head is completed, but less than half the growth of the face is finished. Facial growth continues for a year or two after youngsters finish their bodily growth in their late 'teens.

HAL HUMPHREY

The Annual '10 Worst'

Hal Humphrey

And now comes the announcement that hardly anybody has been waiting for—the results of Humphrey's fourth annual "10 Worst" TV Awards.

The 1961 competition for these unwelcome honors has been fierce, as usual. Also I am aware that the year isn't quite over. Rest assured that if any show or performer makes an all-out effort before Jan. 1, the awards committee (me) will see that he, she or it is rewarded in a special "Late-Late" category.

Meanwhile, my congratulations to the losers and condolences to the winners. And here they are!

WORST SITUATION COMEDY: It's been a big year for chimpanzees participating in our space program at Cape Canaveral, but three of their group (the Marquis Chimps) bombed out in a ridiculous series called "The Hathaway (ABC). Only other comedy series to come close was Wayne & Shuster in Jack Benny's summer replacement, "Holiday Lodge" (CBS).

WORST ADVENTURE SERIES: Lots of competition here, but "Follow the Sun" (ABC) wins out because more money and more talent have been wasted on it than on the short-lived "Acapulco" (NBC) or the barely alive "Straightaway" (ABC).

WORST HAM: Nikita Khrushchev almost nosed out Jack Paar here last year with his shoe-pounding routine on a U.N. telecast. This time, however, Paar has no peer for the prize. His ego has grown so large that the shade from it has almost turned Hugh Downs into a mushroom.

WORST SPECIAL IN OR OUT OF SERIES: Several contenders here, including "The Wonderful World of Toys" (NBC), "25 Years of Life" (NBC) and "The Sound of the '60s" (NBC). The last-named entry gets honors because of "Sounds" were mostly pipsqueaks, and produced by a man who should know better—Dore Schary.

WORST MUSICAL REVUE: Jane Powell and Hugh O'Brian headed the unfortunate cast in "Feathertop" (ABC), a messy, borning hour supposedly suggested by Nathaniel Hawthorne's short story.

WORST WHAT-IS-IT SERIES: You've heard of "whodunits." Now we're confronted with "what-is-its." "Window on Main Street," "Bob cummings Show" and "Ichabod and Me" all fall into this category, and all are on CBS. They're not comedy or crime, although there might be some debate about the latter. Anyway, the prize goes to Robert Young ("Window"), and apologies to the other two Roberts—Cummings and Sterling.

WORST QUIZ OR PANEL SHOW: Jackie Gleason might have been the winner, had he kept his "You're in the Picture" quizzer on CBS more than one week, but he chickened out and spent the next few weeks apologizing, drinking coffee and interviewing everyone from a chimpanzee to Bobby Darin. So the award goes to ever-lovable Bert Parks and his new "Yours for a Song" (ABC) clambake. Bert is so patronizing he should wear shoes on his knees, and the contestants should be sent to psychiatrists.

WORST CRIME SERIES: Newton Minow's "wasteland" reaches its roughest terrain here. "The Investigators" (CBS), "New Breed" (ABC) and "87th Precinct" (NBC) all have presented episodes which reached close to the nadir in sadism and pointlessness. "New Breed" wins for trying to be pompous about it all.

WORST WESTERN: Viewers finally got caught up with this type of fairy tale, but not before "Gunslinger" (CBS) and "Whispering Smith" (NBC) rode on the horizon early this year. Both were so corny and moth eaten that apparently even the kids wouldn't buy them. "Gunslinger" wins the draw.

WORST COMMERCIAL: Madison Avenue went very dramatic this year. I'm sure viewers have been thrilled by that blond who shampoos her hair as she stands on the steps of the Parthenon. Then there's that other gal who "steps up" from the valley of dirty, non-menthol smoke to the veritable heaven where people smoke her cigarette. But the trophy goes to those great actresses in the "Secret" commercials who prove that a dab of "secret" under each arm is the answer to most of our troubles.

There will be no banquet this year. Just pick up your "worsters" and file out to the right.

Arraignment Delayed In FHA Records Case

WHEELING, W. Va. (AP) — Arraignment of Bernard B. Templeton, one of several persons charged with falsifying records to obtain Federal Housing Administration loans, has been postponed to Jan. 10.

Templeton's case was continued after Federal Court Judge Charles F. Paul put two contractors on probation in the same case. The two—Roger Sterling, 43, of Wheeling and Joseph T. Coram, 38, of Glen Dale—had pleaded guilty.

In addition, Sterling was fined a total of $1,000, but no fine was assessed in Coram's case.

Templeton, 35, former vice president of the Union Federal Savings and Loan Association, had been missing between Oct. 4 and the time of his arrest at Columbus, Ohio, last week. He is free on $10,000 bond.

Area Marines Given Leaves

Five area Marines are spending 20-day leaves at home after completing recruit training at the Marine Corps Recruit Depot at Parris Island, S. C., and four weeks advance training at Camp Lejeune, N. C., according to Sgt. Robert J. Barnes, local recruiter.

They include Pvt. Richard E. Davis Jr., son of Mrs. Katherine Maloney, 1040 Edgewood Ave., who returns to Camp Lejeune for duties in the communications field.

Pvt. James D. Birkhimer, son of Mr. and Mrs. James E. Birkhimer, 804 Morton St., will report to Buford, S. C., for further assignment.

Pvt. Perry Hurst, son of Mrs. Flora M. Christian, 1194 Erie St., will report to Camp Lejeune for duty in the supply field.

All three are 1961 graduates of East Liverpool High School.

Pvt. Edward Lee Foster, son of Mr. and Mrs. Barron Foster, 819 Wood St., Wellsville, will report for duty in communications at Camp Lejeune. He is a 1961 graduate of Wellsville High School.

Pvt. Charles L. Wright, son of Mr. and Mrs. Charles M. Wright of Chester R. D. 1, is scheduled to return to Camp Lejeune for work in the supply field. He attended Chester High School before entering the service.

Sgt. Barnes is located on the third floor of City Hall. His office is open each Tuesday and Friday.

Upheavals Taking Place

Europe Common Market Changing Trade Picture

By GEOFFREY GOULD

WASHINGTON (AP) — Like a football game without a scorecard, the current welter of news about foreign trade, tariffs and the European Common Market can be a little confusing.

Great upheavals are taking place in world trade, and new forces are changing the map. They may affect millions of Americans, from the cotton farmer in southwest Arkansas to the man who puts spokes in the wheels in a New England bicycle factory.

The major factor that is changing old patterns of trade in the free world is the European Economic Community, or Common Market. Here is an attempt to provide a scorecard on the Common Market, with basic answers to basic questions:

Q. What is the Common Market?

A. It is an agreement between six European nations — France, West Germany, Italy, the Netherlands, Belgium and Luxembourg —to lower tariff barriers between each other over a period of years to the vanishing point. At the same time they are setting up a common external tariff to deal with the rest of the world as a unit.

Q. How is it doing?

A. It is doing rather well. The six nations are ahead of schedule in lowering their internal tariffs, and business is booming under the stimulus. So much so that Great Britain, which stood aloof from the Treaty of Rome, now wants in even though it would disrupt the British Commonwealth and cause other changes in the British way of life, such as converting its ancient currency system to a decimal system. Denmark, Ireland and Norway are likely to join too. Sweden, Austria and Switzerland would probably like to join, but must tread carefully to preserve their East-West nutrality.

Q. What does this mean to us in the United States?

A. It means that if we want to continue trading in the rich common market, we must negotiate a low external tariff for the Common Market countries. Proponents of liberalized foreign trade, with the Kennedy administration as a chief drumbeater, say we must be able to offer the Common Market reduced United States tariffs in return. This, in simplified terms, is what the big, bloody fight shaping up in Congress next year is about. Protectionist, or high tariff sentiment is strongly represented in Congress. Almost every congressman or senator has plants in his district that might be hurt by freer entry of foreign goods.

6 Cars Figure In Collisions

Six cars were damaged and a motorist was injured in three separate accidents Sunday in Wellsville, police said today.

Forrest Harris, 1036 Anderson Ave., was cited for driving without an operator's permit after his car struck a parked car owned by Walter Nelson, 707 Broadway, Wellsville, on Broadway near 7th St. Sunday at 1:40 a.m.

The Nelson car was pushed into another parked car owned by Ance Corsello, 711 Broadway, officers said.

Jay Taggart, 25, of 1027 Center St., Wellsville, was injured slightly when his car struck a parked car owned by Irene Dent, 927 Commerce St., in front of her home Sunday at 12:30 a.m.

Taggart was admitted to City Hospital for observation but later released. He has been cited for driving while under the influence of alcohol.

A car driven by Gene T. Gilbert of Boyd St., slid into the Acme Craft Ware building at the corner of 3rd and Lisbon Sts. Sunday morning at 10 a.m. Gilbert told officers he was traveling about 10 miles an hour.

Apple A Day And Gravity Are Medical News Items

By The Associated Press

An apple a day, life under high gravity and facial growth are items in the medical news:

Apple Medicine

An apple a day does seem to keep the doctor away.

At least, students eating two to three apples daily made far fewer calls at Michigan State University's Health Center for upper respiratory infections and tension-pressure complaints than non-apple eaters.

The threee-year study, started by the late Dr. Eugene H. Lucas, involved more than 1.300 apple eaters, compared with all the rest of the students.

The apple eaters made one-third fewer calls for upper respiratory infections than expected for the entire student body. They made only one-sixth as many calls because of tension or pressure phenomena, including pressure headaches, nervousness, and inability to concentrate.

As to why, investigators say perhaps the vitamin C content of apples was helpful, or a better balanced diet, or perhaps because of some tranquillizer in apples.

High Gravity Life

When and if man colonizes planets bigger than earth, he may find children a bit stunted in growth. For these were the physical effects on mice living under gravity pull three to seven times than on the earth, report Dr. Charles C. Wunder and associates of the State University of Iowa. The bigger a planet is, the greater is its gravity.

The mice lived in cages spun by a centrifuge at speeds up to 5,000 revolutions per minute. In a few weeks, the animals adjust to the increased gravity. But they have small appetites, and in size become smaller than mice living under normal gravity.

Face Growth

The human face is slow in reaching full growth, reports Dr. Jagdish K. Bambha of Denver on the basis of X-ray studies.

By the time a child is nearly four years old, 90 per cent of the growth of the head is completed, but less than half the growth of the face is finished. Facial growth continues for a year or two after youngsters finish their bodily growth in their late 'teens.

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: While waiting for a bus on a nasty morning three years ago one of the handsomest men in our neighborhood gave me a lift right to my office door.

I've enjoyed his scintillating company these last three years and have saved more than $200 in bus fare. It was too good to last. The bolt from the blue went like this:

"My dear, I've enjoyed your beauty and your conversation for a long time. I'm afraid, however, the animal is beginning to gnaw upon the man. Lest this phase of the foolish 40s leads me to irresponsible behavior I'd prefer to confine my offer of transportation to days of inclement weather only."

Now, Ann, this man sails by me every morning and waves. I don't know if I should admire him or heave a brick through his windshield. Is there a possibility that he was fishing for an interesting proposal from me? — CURBED.

-:-

Dear Curbed: Not only is it possible, "Buttercup," but it's so doggone likely that I'd bet my typewriter ribbon on it.

The next time there's a tree-falling storm and the neighborhood pinup boy offers you a ride shout: "No thanks—the weather isn't inclement enough."

Marriage On Rock

Dear Ann: This is my second marriage. My first husband gave me a beautiful diamond engagement ring. It has no sentimental value but it's a gorgeous stone.

My present husband gave me a beautiful wedding band. It goes perfectly with the ex's engagement ring. My husband doesn't want me to wear the former husband's ring under any conditions. I've offered to have it re-set and he says: "No, HE bought it for you and I don't want you to wear it."

I've thought of having it made into a pin or a pendant but I seldom wear that type of jewelry. I suppose I could sell it but if I did I'd never be able to own a stone like this again.

You decide, Ann.—RIVERSIDE.

-:-

Dear Riverside: Sell the ring and get it out of your life. Of what value is a diamond if this second marriage goes down the drain? Since you know it's a source of irritation, get smart and unload it.

Steady By Jerks

Dear Ann: My mother is a great fan of yours. I read your column regularly, too, but I don't always agree with your advice. I DO agree with what you say about going steady, though.

I first went stady when I was 15. It lasted 11 months. After a while Jeff and I could almost read each other's minds. It got so boring I gave up. I felt as if I had been let out of jail. I didn't know there were so many interesting fellows in the world until I got free of Jeff.

Now my folks say I am going out with too many different guys. They don't like it. My father says it's bad for a girl's reputation. I need your opinion.—ESCAPED.

-:-

Dear Escaped: Variety is the spice of life but make sure it doesn't get too spicy.

So long as your parents meet every fellow you date (insist that they call for you at home) and if you respect your parents' curfew, I see nothing wrong in dating several young men.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

Income Tax Forms Now Available . . !

The local Internal Revenue Service office today added a bit of "gloom" to the traditional year-end merriment between the Christmas and New Year's holidays.

The office on Washington St. said it has received a supply of blank forms used for filing of 1961 income tax returns.

An official said the IRS office will be open four hours longer next year to assist local taxpayers with their returns before the deadline April 15.

The local office will be open each Friday between Jan. 5 and the April 15 deadline from 8:15 a.m. to 5 a.m. Last year's schedule was 1 to 5 on Fridays.

An "increase in the work load" with more persons required to file each year was attributed to the longer office hours.

The official urged local taxpayers to make inquiries by phone if the filing problem can be solved, rather than a personal call at the office.

The IRS office number is FU. 5-4270.

Midland Teen Center To Hold 'Holly Hop'

The Bobby Vinton Quintet of Pittsburgh will play for the Midland Hi-Spot Center's "Holly Hop" Saturday from 8:30 to 11:30 p. m., Mrs. William Spisak, director, announced.

The affair had been scheduled for Friday night but because of the prominence of the band, the dance was changed to Saturday. Also the age limit has been raised to 21 for members and quests.

Mrs. Spisak said the band played on television during the summer and recently for a show featuring Bobby Rydell and others. This dance takes the place of the center's annual "New Year's Eve Frolic." There will be refreshments, including pizza.

During January, the center will hold Friday night sessions.

Ann Landers

ANSWERS YOUR PROBLEMS

Dear Ann Landers: While waiting for a bus on a nasty morning three years ago one of the handsomest men in our neighborhood gave me a lift right to my office door.

I've enjoyed his scintillating company these last three years and have saved more than $200 in bus fare. It was too good to last. The bolt from the blue went like this:

"My dear, I've enjoyed your beauty and your conversation for a long time. I'm afraid, however, the animal is beginning to gnaw upon the man. Lest this phase of the foolish 40s leads me to irresponsible behavior I'd prefer to confine my offer of transportation to days of inclement weather only."

Now, Ann, this man sails by me every morning and waves. I don't know if I should admire him or heave a brick through his windshield. Is there a possibility that he was fishing for an interesting proposal from me? — CURBED.

-:-

Dear Curbed: Not only is it possible, "Buttercup," but it's so doggone likely that I'd bet my typewriter ribbon on it.

The next time there's a tree-falling storm and the neighborhood pinup boy offers you a ride shout: "No thanks—the weather isn't inclement enough."

Marriage On Rock

Dear Ann: This is my second marriage. My first husband gave me a beautiful diamond engagement ring. It has no sentimental value but it's a gorgeous stone.

My present husband gave me a beautiful wedding band. It goes perfectly with the ex's engagement ring. My husband doesn't want me to wear the former husband's ring under any conditions. I've offered to have it re-set and he says: "No, HE bought it for you and I don't want you to wear it."

I've thought of having it made into a pin or a pendant but I seldom wear that type of jewelry. I suppose I could sell it but if I did I'd never be able to own a stone like this again.

You decide, Ann.—RIVERSIDE.

-:-

Dear Riverside: Sell the ring and get it out of your life. Of what value is a diamond if this second marriage goes down the drain? Since you know it's a source of irritation, get smart and unload it.

Steady By Jerks

Dear Ann: My mother is a great fan of yours. I read your column regularly, too, but I don't always agree with your advice. I DO agree with what you say about going steady, though.

I first went stady when I was 15. It lasted 11 months. After a while Jeff and I could almost read each other's minds. It got so boring I gave up. I felt as if I had been let out of jail. I didn't know there were so many interesting fellows in the world until I got free of Jeff.

Now my folks say I am going out with too many different guys. They don't like it. My father says it's bad for a girl's reputation. I need your opinion.—ESCAPED.

-:-

Dear Escaped: Variety is the spice of life but make sure it doesn't get too spicy.

So long as your parents meet every fellow you date (insist that they call for you at home) and if you respect your parents' curfew, I see nothing wrong in dating several young men.

Ann Landers will be glad to help you with your problems. Send them to her in care of The Review, enclosing a stamped, self-addressed envelope.

Income Tax Forms Now Available . . !

The local Internal Revenue Service office today added a bit of "gloom" to the traditional year-end merriment between the Christmas and New Year's holidays.

The office on Washington St. said it has received a supply of blank forms used for filing of 1961 income tax returns.

An official said the IRS office will be open four hours longer next year to assist local taxpayers with their returns before the deadline April 15.

The local office will be open each Friday between Jan. 5 and the April 15 deadline from 8:15 a.m. to 5 a.m. Last year's schedule was 1 to 5 on Fridays.

An "increase in the work load" with more persons required to file each year was attributed to the longer office hours.

The official urged local taxpayers to make inquiries by phone if the filing problem can be solved, rather than a personal call at the office.

The IRS office number is FU. 5-4270.

Midland Teen Center To Hold 'Holly Hop'

The Bobby Vinton Quintet of Pittsburgh will play for the Midland Hi-Spot Center's "Holly Hop" Saturday from 8:30 to 11:30 p. m., Mrs. William Spisak, director, announced.

The affair had been scheduled for Friday night but because of the prominence of the band, the dance was changed to Saturday. Also the age limit has been raised to 21 for members and quests.

Mrs. Spisak said the band played on television during the summer and recently for a show featuring Bobby Rydell and others. This dance takes the place of the center's annual "New Year's Eve Frolic." There will be refreshments, including pizza.

During January, the center will hold Friday night sessions.

Ever cook kohlrabi? This good vegetable should be better known than it is. Cut off the tops, pare the roots and slice thin; cook in a small amount of salted water and serve with melted butter or a cream sauce.

Clarkson Class To Have Dinner

The Friendship Class of Clarkson will meet Thursday night at 7 with Mr. and Mrs. Earl Davis for a coverdish dinner and gift exchange.

Mr. and Mrs. Harry Thompson will have charge of the entertainment and H. L. Gaston, president, will conduct business.

A candlelight Christmas program was given Sunday night in the United Presbyterian Church under the supervision of Mrs. Evelyn Hauserman, superintendent of the Sunday School Department.

Mr. and Mrs. Everett George entertained Sunday with a family dinner. Present were Mr. and Mrs. Kenneth George and family of Lisbon, Mr. and Mrs. Robert George and family of East Palestine, Mr. and Mrs. Glenn George and family of Alliance and Mr. and Mrs. Howard Gumble and family of Rogers.

Mr. and Mrs. Lloyd Smith and father, Earl Smith, of Alliance were Saturday guests of the latter's son and daughter-in-law, Mr. and Mrs. Robert J. Smith.

Mr. and Mrs. Louis Hole and Mr. and Mrs. Kenneth Hole and infant son have returned after a month at Ft. Myers, Fla.

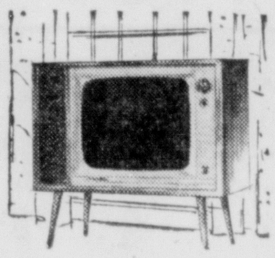

Area Unemployment Shows Pre-Yule Rise

Pre-Christmas unemployment showed a substantial increase in East Liverpool, the Ohio State Employment Service office said today.

Harry L. Dinsmore, manager, said claims processed for the week ending Saturday totaled 617, an increase of 71 over the 546 filed for the week ending Dec. 16.

The claims included 536 filed on the regular benefits program and 81 received under the federal extended act. Of the regular claims, 145 were new and 391 continuing while 6 initial and 75 continuing were processed under the federal extension, Dinsmore said.

Fireman, 2 Others Die In Hotel Blaze

NEW YORK (AP) — Two residents and a fireman died early today in a fire on the ninth floor of the 17-story Hotel Mayflower overlooking Central Park.

Two other men—apparently residents—were burned, one of them critically. Seven firemen were burned or overcome by smoke.

Most of the 400 guests in the largely residential hotel at Central Park West and 61st St. fled from their rooms shortly before 2 a.m.

The guests—many of them in nightclothes—congregated in the lobby. There was no panic. Two of them carried pet canaries from their rooms.

They streamed down to the lobby via stairwells and elevators after the hotel manager pressed a button that sounded an alarm on every floor.

The fire burned out of control for almost an hour. City firemen, called out on two alarms, kept the blaze from spreading from the ninth floor.

An unidentified man, walking past the hotel as the alarm was sounded, heard calls for help and ran inside. He ran through the hotel, pounding on doors and shouting an alarm.

The dead:

Murray Wyzel, about 60, dedescribed as a songwriter who had written for the Perry Como television shows.

Fireman John King, 29, a resident of Commack, Long Island.

An unidentified woman.

Fire officials said the blaze had started in Wyzel's room and spread to the hall. The cause was not immediately determined.

Firemen attached hoses to standpipes on the eighth floor, carried them to the ninth and trained them on the hall door. The door gave way and flames burst at the firemen. Two fire lieutenants were burned. Two firemen were knocked out by dense smoke pouring from the hall.

Midland Rates Heavy Favorite In Booster Club Tourney

Dukes, Villanova Continue Unbeaten

★ ★ ★ LA Classic Gets Underway Tonight ★ ★ ★

By BOB GREEN
Associated Press Sports Writer

Mighty Ohio State, the nation's No. 1 college basketball team, heads into the Los Angeles Classic tonight—the biggest challenge it is likely to encounter until the postseason tournaments.

Waiting for the Jerry Lucas-led Buckeyes are three of the top 10 teams in the country: Southern California, Purdue and West Virginia. A capable Utah team forms the principal opposition for all-winning Ohio State.

The Buckeyes take on Washington in first-round play in the classic, one of the most important of the holiday tournaments. Also kicking off tonight are the Big Eight affair in Kansas City and the Far West in Portland, Ore.

The last two first-round games in the All-College tourney at Oklahoma City also are on tap. The survivors of first-round action in the ECAC Holiday Festival in New York and the Quaker City in Philadelphia take the day off.

First-round play in three major tournaments Tuesday night—the ECAC Holiday Festival in New York, the Quaker City in Philadelphia and the All-College in Oklahoma City—produced some mild upsets but generally went according to form.

Two previously unbeaten teams, Cornell and New York University, were eliminated from the exclusive list. NYU now (6-11) before unbeaten Dayton (7-0) 75-67 in Holiday Festival first-round match while Bradley (6-2) stopped touring Cornell's winning streak at six with a 85-59 trouncing of the Big Red in a nontourney game.

Second-ranked Cincinnati had no trouble eliminating St. John's (N.Y.) 97-68, Wisconsin handed slumping Providence its third straight loss, 95-84 and LaSalle toyed with Dartmouth 87-66 in other Holiday Festival games.

The semifinal pairings Thursday have LaSalle (5-1) vs. defending NCAA champion Cincinnati (7-1) and unbeaten Dayton (7-0) vs. Wisconsin (5-2).

In Philadelphia, Villanova and Duquesne retained unbeaten records with easy first-round victories and will meet in a semifinal match Thursday. Villanova crushed Niagara 72-45 while third-ranked Duquesne bombed Wyoming 64-47.

In other Quaker City first-round matches Penn tumbled Holy Cross 73-64 and Iowa stopped Penn 67-48.

Thursday semis pit Villanova (9-0) and the powerful Duquesne Dukes (7-0) and Penn (5-1) goes against Iowa (5-2).

Houston came from behind and beat Texas Christian 82-76 and Utah State took Oklahoma City 80-71 in first-round games in the All-College. Seattle puts its 5-0 record on the line against Bowling Green (5-1) and eighth-ranked Wichita (8-1) meets Texas A&M

Wellsville's Baldwin Out With Injured Ankle; Opener Set At 7

Hank Kuzma's Midland Leopards, with an impressive 7-0 record, were stamped as heavy favorites to win their own Holiday Tournament which opens tonight. It is sponsored by the Leopard Booster Club.

Ft. Cherry and Monaca will launch the tournament at 7 with the host Midland five meeting rival Wellsville in the nightcap starting about 8:30.

The two winners will meet Thursday at 8:30 for the tourney championship while the losers return for a consolation engagement at 7.

Wellsville, an underdog in the tournament to begin with, lost about its last ray of hope when it was learned Steve Baldwin, the Tigers 6-foot-6 junior star who is carrying a 22-point average, would be out for a week or more.

Baldwin suffered an ankle injury in the Lisbon game Saturday night and will not be able to take part in any games this week, doctors said.

Only Midland and Ft. Cherry enter the tournament with the winning records. Midland, of course, is undefeated and has passed several stiff tests in recording seven straight victories.

Ft. Cherry from Washington County is the Pennsylvania Class B champion for the 1960-61 season and brings a 4-3 mark to Midland. Ft. Cherry rates the edge over Monaca. Monaca, who will be a Section 8 opponent of Midland's later in the season, has only been successful in two of its seven starts.

Wellsville, who lost a disappointing contest at Lisbon Saturday, has one victory in three starts. Coach Jack McDevitt's Tigers have also lost to Freedom. The lone victory at the hands of Beaver Local last Friday.

Rout By LSU Predicted In Orange Bowl

One Paper Says 40-To-0 At Half

MIAMI, Fla. (AP) — A "forty-to-nothing by halftime" prediction has given the underdog Colorado football team unexpected ammunition to use against Louisiana State.

Coach Paul Dietzel, who brought his fourth-ranked LSU Tigers to town Tuesday, winced at the psychological warfare weapon Colorado has found in preparations for Monday's Orange Bowl game.

A New Orleans newspaper was quoted here as saying "Louisiana State will not embarrass the Orange Bowl Committee by winning by more than 40 points." It continued by saying the early kickoff would permit television viewers (ABC-TV) to see LSU run up a 40-0 halftime count before they switched to other games.

Dietzel battled to maintain his poise and choke back the words on the "40-0 story."

"I don't think we have any advantages in the build-up to this game," he said later. Dietzel referred unhappily to the fact LSU was favored. "Colorado has all the advantages going for it," he added.

No spectators and no newspapermen, Engle decreed as he prepared to drill his Nittany Lions for Saturday's Gator Bowl game against Georgia Tech at Jacksonville.

"We aren't planning any major changes," Engle said, "but we use something a little different for every game. We may go back and resurrect some for this one."

He said this will be the only closed practice. Thursday's session will be supervised but newsmen will be admitted, he said, and the final light drill Friday will be merely for limbering up.

Tide Favored To Win 1st Bowl For Bryant

NEW ORLEANS (AP) — The football fortunes of Alabama and Arkansas were rather dismal in 1958 when both schools hired new coaches.

Paul (Bear) Bryant returned to Alabama—his alma mater—after becoming almost a legend as coach at Maryland, Kentucky, and then Texas A&M.

Alabama makes its third bowl appearance under Bryant in the 1962 Sugar Bowl at New Orleans. The Tide is a predominant favorite for its first post-season victory under the Bear, after one defeat and a tie.

Alabama's opponent will be Arkansas, whose young Frank Broyles is rapidly building a legend at Fayetteville.

In 1958, Broyles came to Arkansas after making his debut the previous year as head coach of Missouri.

Under Broyles, Arkansas has a 29-13 record. Three successive bowl appearances represent a new high at Arkansas.

No Changes Planned By Rose Bowl Coaches

PASADENA, Calif. (AP) — The Rose Bowl game, patriarch of all post-season bowl games, promises to be a display of "stone age football," in its 48th renewal on New Year's Day.

This was, more or less, the admission Tuesday of the two coaches embroiled in the Pasadena classic, Murray Warmath of favored Minnesota and Bill Barnes of UCLA.

Appearing at the dedication of the new $356,000 Rose Bowl press box, those two proteges of the University of Tennessee's famed football purist, Gen. Bob Neyland, predicted a slam-bang game free of gridiron chicanery.

There may have been more truth than tongue-in-cheek when Barnes told more than 100 football experts of varying pedigrees:

"We don't have any secrets but I know that this will be a tremendous football game. We hope our stone age football pays off. . ."

Warmath said his Gophers have tried a few new "little knicknacks," but added: "What we have been doing all season got us here and that's what we hope will sustain us next Monday."

Engle Orders Closed Session For Lions

ST. AUGUSTINE, Fla. (AP) — Coach Rip Engle ordered the gates closed for Penn State's football practice this afternoon.

Iron Man Act By Schayes End Tonight

BOSTON (AP) — Veteran Dolph Schayes' great iron man performance will come to an end tonight when the Syracuse Nats meet the Los Angeles Lakers in a National Basketball Association twinbill at Philadelphia.

For Schayes will be in a hospital bed here—his right cheek bone shattered—as the players tap off in the city of brotherly love.

The 33-year-old Schayes, highest scorer in NBA history, was injured Tuesday night in a collision with Al Attles of the Warriors in the first game of a twinbill won by Philadelphia, 118-111.

The injury stops Schayes' consecutive game streak at 705—at 764 including playoff action.

The fancy Boston Celtics finally overcame the Lakers in the nightcap of the doubleheader here, 127-112.

In other games Tuesday night, the Cincinnati Royals beat the St. Louis Hawks 129-118 and the Chicago Packers tripped the Detroit Pistons 108-101.

Blue And Gray Squads Wait New Additions

MONTGOMERY, Ala. (AP) — Two hurry-up additions to the Blue-Gray rosters were expected to arrive in time for practice today, just three days before the 23rd annual all-star football game.

Officials announced signing of end Tom Smith of Florida for the South and halfback Mike McClellan of Oklahoma for the North.

They will fill in for a pair of gridders injured in practice sessions that began Saturday.

Smith replaces Bill Hull of Wake Forrest, a 230-pound end who suffered a sprained ankle. McClellan takes the place of 172-pound Norm Beal of Missouri, who pulled a thigh muscle.

CINCINNATI'S George Wilson (32) drives in for a two-pointer during the Holiday Festival Tournament game with St. John's at New York Tuesday. Cincinnati's Fred Dierking (15) watches the play. The Bearcats trounced St. John's, 97-68. (UPI Telephoto)

'Right Men In Right Place'

Packers' Offensive Line Draws Praise From Coach

GREEN BAY, Wis. (AP)—What makes the Green Bay Packers run?

It's the right men in the right place in the offensive line, especially at center and the guards, said Packer line coach Bill Austin.

Manning the three prime posts for the Packers are all-pro center Jim Ringo and guards Fred Thurston and Forrest Gregg. They anchored the line that helped the Packers to their second straight Western Division crown and into Sunday's National Football League clash here with the New York Giants.

At the Green Bay-New York meeting in Milwaukee on Dec. 3 the Packers took a 20-17 victory and clinched their division title. The Packers rolled up 16 first downs on the ground to 4 for New York. They gained 270 yards rushing to 69 for the Giants. The Packers added 145 yards passing for a total gain of 415 yards. New York passed for 210 yards and a total of 279.

Ringo is the best center in the league, Austin said, because "he's quick and smart."

Thurston, at 250 pounds, has amazing speed for a big man. Gregg, a 240-pounder, is an all-pro tackle, but shifted to the guard spot when Jerry Kramer was lost for the season with an ankle injury.

Playing the tackles are Norm Masters and Bob Skoronski, a pair of 250-pounders.

Against the Giants, the Packer line time and time again cleared wide routes for fullback Jim Taylor. He responded with his greatest game, running for 186 yards in 28 carries.

Brown, Moore Take Monthly 'Ring' Honors

NEW YORK (AP) — Lightweight champion Joe Brown and featherweight king Davey Moore were awarded the top honors today in Ring Magazine's copyrighted rankings of 1961.

Brown, the 35-year-old clouter from Baton Rouge, La., and the 28-year-old Moore of Columbus, Ohio, were the only champions placed alone in the category in their respective divisions.

On the other hand, Ring editor Nat Fleischer rated three fighters Ring recognizes as champions behind other men in their divisions.

Light heavyweights Archie Moore, recognized by New York, Massachusetts and Europe as champion of the 175-pounders, was placed second behind Harold Johnson, of Philadelphia, hailed as king by the National Boxing Association.

Gene Fullmer, the NBA-recognized middleweight champion from West Jordan, Utah, was placed on top of the 160-pounders with Paul Pender of Brookline, Mass., second and Terry Downes of England, third.

Emile Griffith of New York, who won and then lost in welterweight title fights with Benny (Kid) Paret of Cuba, was rated first ahead of the reigning champion, Paret, in the 147-pound class.

Australia Routs Italy To Capture Davis Cup

MELBOURNE, Australia (AP) —A team as hot as the sun that blistered the Kooyong Stadium courts for two days clinched Australia's 10th Davis Cup tennis championship in 12 years today, sweeping the doubles for a 3-0 lead over challenger Italy without loss of a set.

The Australian pair of Neale Fraser and Roy Emerson routed Nicola Pietrangeli and Orlando Sirola 6-2, 6-3, 6-4 for the clincher before a crowd of about 9,000, who chanced the near 100 degree temperatures to be in on the kill of the Italians for the second straight year.

There was about as much tension to the doubles match as Tuesday's singles—also straight set romps in which Emerson turned back Pietrangeli 8-6, 6-4, 6-0 and Australian ace Rod Laver disposed of Sirola 6-1, 6-4, 6-3.

The sweep reduced Thursday's closing singles matches to formalities and proved again that the Italians are far from Australia's class when it comes to playing on grass courts.

Coupled with a mid-summer heat wave that today shot the mercury to 96 in the shade and an estimated 110 at courtside, the surface handicap and the exceptionally steady play of the Australian team was too much to overcome.

The Italians, who eliminated the United States the last two years to reach the challenge round, scored only one service break against Emerson and the veteran Fraser.

★ ★ ★ LA Classic Gets Underway Tonight ★ ★ ★

By BOB GREEN
Associated Press Sports Writer

Mighty Ohio State, the nation's No. 1 college basketball team, heads into the Los Angeles Classic tonight—the biggest challenge it is likely to encounter until the postseason tournaments.

Waiting for the Jerry Lucas-led Buckeyes are three of the top 10 teams in the country: Southern California, Purdue and West Virginia. A capable Utah team forms the principal opposition for all-winning Ohio State.

The Buckeyes take on Washington in first-round play in the classic, one of the most important of the holiday tournaments. Also kicking off tonight are the Big Eight affair in Kansas City and the Far West in Portland, Ore.

The last two first-round games in the All-College tourney at Oklahoma City also are on tap. The survivors of first-round action in the ECAC Holiday Festival in New York and the Quaker City in Philadelphia take the day off.

First-round play in three major tournaments Tuesday night—the ECAC Holiday Festival in New York, the Quaker City in Philadelphia and the All-College in Oklahoma City—produced some mild upsets but generally went according to form.

Two previously unbeaten teams, Cornell and New York University, were eliminated from the exclusive list. NYU now (6-11) before unbeaten Dayton (7-0) 75-67 in Holiday Festival first-round match while Bradley (6-2) stopped touring Cornell's winning streak at six with a 85-59 trouncing of the Big Red in a nontourney game.

The Review Sports
WEDNESDAY, DECEMBER 27, 1961 PAGE 20

Second-ranked Cincinnati had no trouble eliminating St. John's (N.Y.) 97-68, Wisconsin handed slumping Providence its third straight loss, 95-84 and LaSalle toyed with Dartmouth 87-66 in other Holiday Festival games.

The semifinal pairings Thursday have LaSalle (5-1) vs. defending NCAA champion Cincinnati (7-1) and unbeaten Dayton (7-0) vs. Wisconsin (5-2).

In Philadelphia, Villanova and Duquesne retained unbeaten records with easy first-round victories and will meet in a semifinal match Thursday. Villanova crushed Niagara 72-45 while third-ranked Duquesne bombed Wyoming 64-47.

In other Quaker City first-round matches Penn tumbled Holy Cross 73-64 and Iowa stopped Penn 67-48.

Thursday semis pit Villanova (9-0) and the powerful Duquesne Dukes (7-0) and Penn (5-1) goes against Iowa (5-2).

Houston came from behind and beat Texas Christian 82-76 and Utah State took Oklahoma City 80-71 in first-round games in the All-College. Seattle puts its 5-0 record on the line against Bowling Green (5-1) and eighth-ranked Wichita (8-1) meets Texas A&M

Wellsville's Baldwin Out With Injured Ankle; Opener Set At 7

Hank Kuzma's Midland Leopards, with an impressive 7-0 record, were stamped as heavy favorites to win their own Holiday Tournament which opens tonight. It is sponsored by the Leopard Booster Club.

Ft. Cherry and Monaca will launch the tournament at 7 with the host Midland five meeting rival Wellsville in the nightcap starting about 8:30.

The two winners will meet Thursday at 8:30 for the tourney championship while the losers return for a consolation engagement at 7.

Wellsville, an underdog in the tournament to begin with, lost about its last ray of hope when it was learned Steve Baldwin, the Tigers 6-foot-6 junior star who is carrying a 22-point average, would be out for a week or more.

Baldwin suffered an ankle injury in the Lisbon game Saturday night and will not be able to take part in any games this week, doctors said.

Only Midland and Ft. Cherry enter the tournament with the winning records. Midland, of course, is undefeated and has passed several stiff tests in recording seven straight victories.

Ft. Cherry from Washington County is the Pennsylvania Class B champion for the 1960-61 season and brings a 4-3 mark to Midland. Ft. Cherry rates the edge over Monaca. Monaca, who will be a Section 8 opponent of Midland's later in the season, has only been successful in two of its seven starts.

Wellsville, who lost a disappointing contest at Lisbon Saturday, has one victory in three starts. Coach Jack McDevitt's Tigers have also lost to Freedom. The lone victory at the hands of Beaver Local last Friday.

Rout By LSU Predicted In Orange Bowl

One Paper Says 40-To-0 At Half

MIAMI, Fla. (AP) — A "forty-to-nothing by halftime" prediction has given the underdog Colorado football team unexpected ammunition to use against Louisiana State.

Coach Paul Dietzel, who brought his fourth-ranked LSU Tigers to town Tuesday, winced at the psychological warfare weapon Colorado has found in preparations for Monday's Orange Bowl game.

A New Orleans newspaper was quoted here as saying "Louisiana State will not embarrass the Orange Bowl Committee by winning by more than 40 points." It continued by saying the early kickoff would permit television viewers (ABC-TV) to see LSU run up a 40-0 halftime count before they switched to other games.

Dietzel battled to maintain his poise and choke back the words on the "40-0 story."

"I don't think we have any advantages in the build-up to this game," he said later. Dietzel referred unhappily to the fact LSU was favored. "Colorado has all the advantages going for it," he added.

No spectators and no newspapermen, Engle decreed as he prepared to drill his Nittany Lions for Saturday's Gator Bowl game against Georgia Tech at Jacksonville.

"We aren't planning any major changes," Engle said, "but we use something a little different for every game. We may go back and resurrect some for this one."

He said this will be the only closed practice. Thursday's session will be supervised but newsmen will be admitted, he said, and the final light drill Friday will be merely for limbering up.

Tide Favored To Win 1st Bowl For Bryant

NEW ORLEANS (AP) — The football fortunes of Alabama and Arkansas were rather dismal in 1958 when both schools hired new coaches.

Paul (Bear) Bryant returned to Alabama—his alma mater—after becoming almost a legend as coach at Maryland, Kentucky, and then Texas A&M.

Alabama makes its third bowl appearance under Bryant in the 1962 Sugar Bowl at New Orleans. The Tide is a predominant favorite for its first post-season victory under the Bear, after one defeat and a tie.

Alabama's opponent will be Arkansas, whose young Frank Broyles is rapidly building a legend at Fayetteville.

In 1958, Broyles came to Arkansas after making his debut the previous year as head coach of Missouri.

Under Broyles, Arkansas has a 29-13 record. Three successive bowl appearances represent a new high at Arkansas.

No Changes Planned By Rose Bowl Coaches

PASADENA, Calif. (AP) — The Rose Bowl game, patriarch of all post-season bowl games, promises to be a display of "stone age football," in its 48th renewal on New Year's Day.

This was, more or less, the admission Tuesday of the two coaches embroiled in the Pasadena classic, Murray Warmath of favored Minnesota and Bill Barnes of UCLA.

Appearing at the dedication of the new $356,000 Rose Bowl press box, those two proteges of the University of Tennessee's famed football purist, Gen. Bob Neyland, predicted a slam-bang game free of gridiron chicanery.

There may have been more truth than tongue-in-cheek when Barnes told more than 100 football experts of varying pedigrees:

"We don't have any secrets but I know that this will be a tremendous football game. We hope our stone age football pays off..."

Warmath said his Gophers have tried a few new "little knicknacks," but added: "What we have been doing all season got us here and that's what we hope will sustain us next Monday."

Iron Man Act By Schayes End Tonight

BOSTON (AP) — Veteran Dolph Schayes' great iron man performance will come to an end tonight when the Syracuse Nats meet the Los Angeles Lakers in a National Basketball Association twinbill at Philadelphia.

For Schayes will be in a hospital bed here—his right cheek bone shattered—as the players tap off in the city of brotherly love.

The 33-year-old Schayes, highest scorer in NBA history, was injured Tuesday night in a collision with Al Attles of the Warriors in the first game of a twinbill won by Philadelphia, 118-111.

The injury stops Schayes' consecutive game streak at 705—at 764 including playoff action.

The fancy Boston Celtics finally overcame the Lakers in the nightcap of the doubleheader here, 127-112.

In other games Tuesday night, the Cincinnati Royals beat the St. Louis Hawks 129-118 and the Chicago Packers tripped the Detroit Pistons 108-101.

Blue And Gray Squads Wait New Additions

MONTGOMERY, Ala. (AP) — Two hurry-up additions to the Blue-Gray rosters were expected to arrive in time for practice today, just three days before the 23rd annual all-star football game.

Officials announced signing of end Tom Smith of Florida for the South and halfback Mike McClellan of Oklahoma for the North.

They will fill in for a pair of gridders injured in practice sessions that began Saturday.

Smith replaces Bill Hull of Wake Forrest, a 230-pound end who suffered a sprained ankle. McClellan takes the place of 172-pound Norm Beal of Missouri, who pulled a thigh muscle.

CINCINNATI'S George Wilson (32) drives in for a two-pointer during the Holiday Festival Tournament game with St. John's at New York Tuesday. Cincinnati's Fred Dierking (15) watches the play. The Bearcats trounced St. John's, 97-68. (UPI Telephoto)

'Right Men In Right Place'

Packers' Offensive Line Draws Praise From Coach

GREEN BAY, Wis. (AP)—What makes the Green Bay Packers run?

It's the right men in the right place in the offensive line, especially at center and the guards, said Packer line coach Bill Austin.

Manning the three prime posts for the Packers are all-pro center Jim Ringo and guards Fred Thurston and Forrest Gregg. They anchored the line that helped the Packers to their second straight Western Division crown and into Sunday's National Football League clash here with the New York Giants.

At the Green Bay-New York meeting in Milwaukee on Dec. 3 the Packers took a 20-17 victory and clinched their division title. The Packers rolled up 16 first downs on the ground to 4 for New York. They gained 270 yards rushing to 69 for the Giants. The Packers added 145 yards passing for a total gain of 415 yards. New York passed for 210 yards and a total of 279.

Ringo is the best center in the league, Austin said, because "he's quick and smart."

Thurston, at 250 pounds, has amazing speed for a big man. Gregg, a 240-pounder, is an all-pro tackle, but shifted to the guard spot when Jerry Kramer was lost for the season with an ankle injury.

Playing the tackles are Norm Masters and Bob Skoronski, a pair of 250-pounders.

Against the Giants, the Packer line time and time again cleared wide routes for fullback Jim Taylor. He responded with his greatest game, running for 186 yards in 28 carries.

Australia Routs Italy To Capture Davis Cup

MELBOURNE, Australia (AP)—A team as hot as the sun that blistered the Kooyong Stadium courts for two days clinched Australia's 10th Davis Cup tennis championship in 12 years today, sweeping the doubles for a 3-0 lead over challenger Italy without loss of a set.

The Australian pair of Neale Fraser and Roy Emerson routed Nicola Pietrangeli and Orlando Sirola 6-2, 6-3, 6-4 for the clincher before a crowd of about 9,000, who chanced the near 100 degree temperatures to be in on the kill of the Italians for the second straight year.

There was about as much tension to the doubles match as Tuesday's singles—also straight set romps in which Emerson turned back Pietrangeli 8-6, 6-4, 6-0 and Australian ace Rod Laver disposed of Sirola 6-1, 6-4, 6-3.

The sweep reduced Thursday's closing singles matches to formalities and proved again that the Italians are far from Australia's class when it comes to playing on grass courts.

Coupled with a mid-summer heat wave that today shot the mercury to 96 in the shade and an estimated 110 at courtside, the surface handicap and the exceptionally steady play of the Australian team was too much to overcome.

The Italians, who eliminated the United States the last two years to reach the challenge round, scored only one service break against Emerson and the veteran Fraser.

All 9 Are Safe In Belly-Landing Of Ohio Plane

PITTSBURGH (AP) — With his wife and friends looking on, Frank Balcar, 46, of St. Clairsville, Ohio, belly-landed his twin engine plane on a snow-covered runway at the Greater Pittsburgh Airport Tuesday. He and his eight passengers, including three sons, walked away.

Balcar said he realized something was wrong with his landing gear as he took off from St. Clairsville. When he swung the plane low over the airport at Wheeling, W. Va., the control tower there radioed that the left wheel was entirely retracted but the right wheel was jammed part way up.

Balcar flew on to Pittsburgh and circled airports here for hours to use up most of his fuel supply.

In the meantime his wife was told of his trouble and she flew here with a friend. Other relatives drove here from St. Clairsville and were watching as Balcar eased the Beechcraft onto a newly constructed runway.

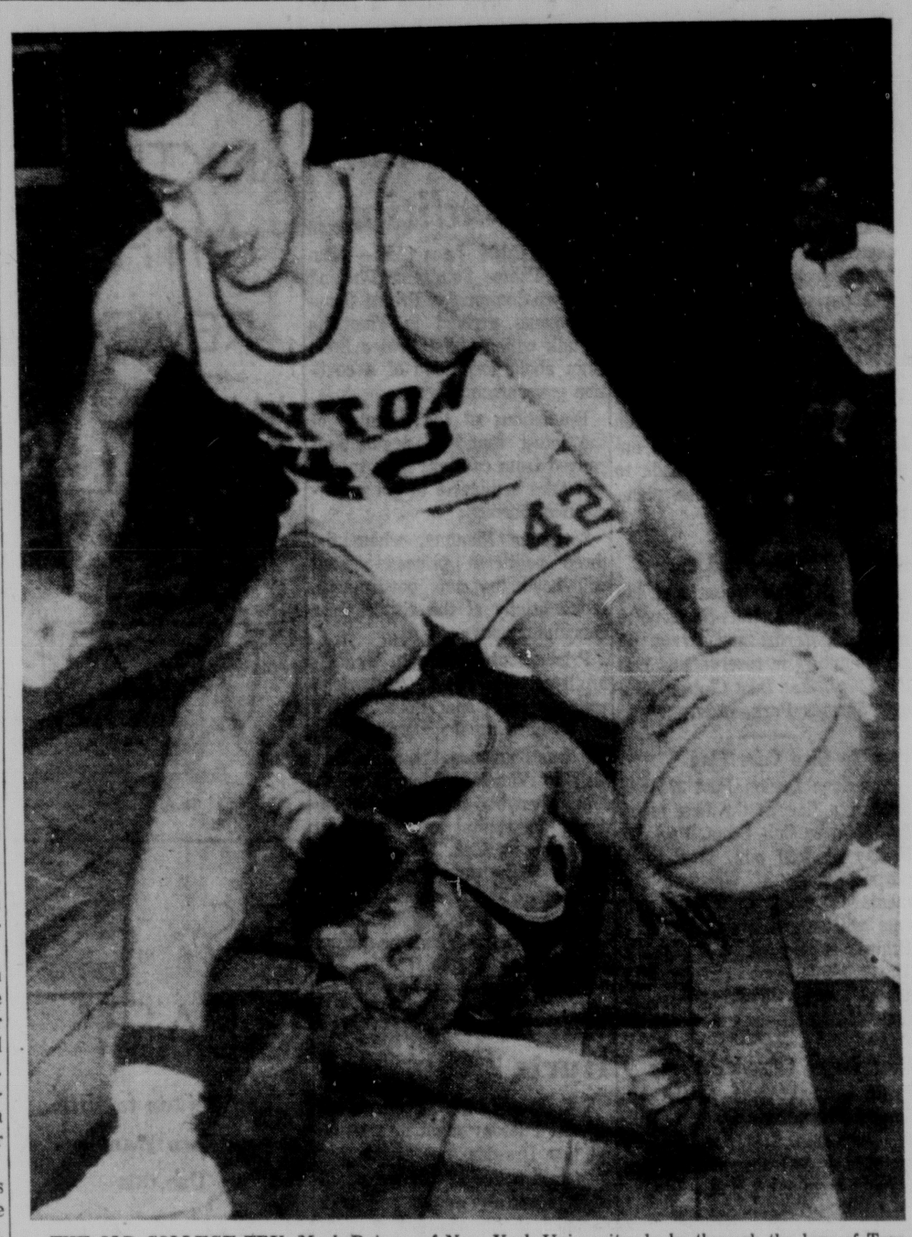

The plane skidded 1,500 feet, but the only visible damage was a bent propeller and dented flaps on the trailing edges of the wings.

Person In False Plane Crash Report Hunted

SUMMERVILLE, Ga. (AP) — Law enforcement officers in this Northwestern Georgia area have stopped looking for a small plane which reportedly crashed with an Ohio family aboard and have begun looking for the person who they say made the false report.

Sheriff Fred D. Stewart said a day and night search has failed to produce any vestige or verification. A similar report came from the area state forestery and Civil defense officials.

An intensive investigation of the incident has been started by the Federal Communications Commission in Atlanta.

Secret Service Eyes Wave Of Bogus Bills

AKRON, Ohio (AP)—The Secret Service is investigating a wave of counterfeit bills that hit this area over the Christmas holiday weekend.

Michael P. Burger, agent in charge of the Secret Service office here, said a number of phony $20 bills had been brought to his office. The notes are made to look as though they had been issued as series 1950A by the Federal Reserve Bank of Cleveland and have the number F113 at the lower right hand corner of the front.

WASHINGTON (AP) — The Washington Redskins confirmed Tuesday that they are getting the speedy Negro halfback, Bobby Mitchell, from the Cleveland Browns as part of the trade that surrendered Syracuse star Ernie Davis to Cleveland.

Reports that the "veteran" would be Mitchell were confirmed Tuesday. All three of the men involved are Negroes.

Once-Beaten Cincy Holds Second Spot

By WILL GRIMSLEY
Associated Press Sports Writer

Unbeaten Ohio State was a unanimous choice today for the No. 1 position in The Associated Press major college basketball poll.

Winner of their first seven games by margins of from 13 to 43 points, the Buckeyes continued to dominate the voting among a special panel of sports writers and broadcasters. They received all the 42 ballots cast for first place.

Cincinnati, the national collegiate—NCAA—champion, held on to second despite a 52-51 loss to Wichita, but the rest of the standings underwent considerable change.

Completing the top ten were: 3. Duquesne; 4. Southern California; 5. Kansas State; 6. Kentucky; 7. West Virginia; 8. Wichita; 9. Purdue, and 10. Duke.

Newcomers to the standings were Wichita, which followed up its victory over Cincinnati with a 60-48 rout of Santa Clara; Kentucky, 80-67 winner over Kansas State, and Duke, winner over West Virginia 69-65.

Ousted were Providence, which fell all the way from third place to the also-ran category after dropping decisions at DePaul and Xavier of Ohio; ninth-place St. Bonaventure, beaten 74-57 by Duquesne, and Seattle and Arizona State, which had been tied for tenth.

The poll included games through Monday but none of the post-Christmas tournament action.

The top ten, based on 10 for first place vote, 9 for second, etc., with first place votes in parentheses:

	Points
1. Ohio State (42)	420
2. Cincinnati	317
3. Duquesne	257

5. Kansas State	197
6. Kentucky	153
7. West Virginia	120

All 9 Are Safe In Belly-Landing Of Ohio Plane

PITTSBURGH (AP) — With his wife and friends looking on, Frank Balcar, 46, of St. Clairsville, Ohio, belly-landed his twin engine plane on a snow-covered runway at the Greater Pittsburgh Airport Tuesday. He and his eight passengers, including three sons, walked away.

Balcar said he realized something was wrong with his landing gear as he took off from St. Clairsville. When he swung the plane low over the airport at Wheeling, W. Va., the control tower there radioed that the left wheel was entirely retracted but the right wheel was jammed part way up.

Balcar flew on to Pittsburgh and circled airports here for hours to use up most of his fuel supply.

In the meantime his wife was told of his trouble and she flew here with a friend. Other relatives drove here from St. Clairsville and were watching as Balcar eased the Beechcraft onto a newly constructed runway.

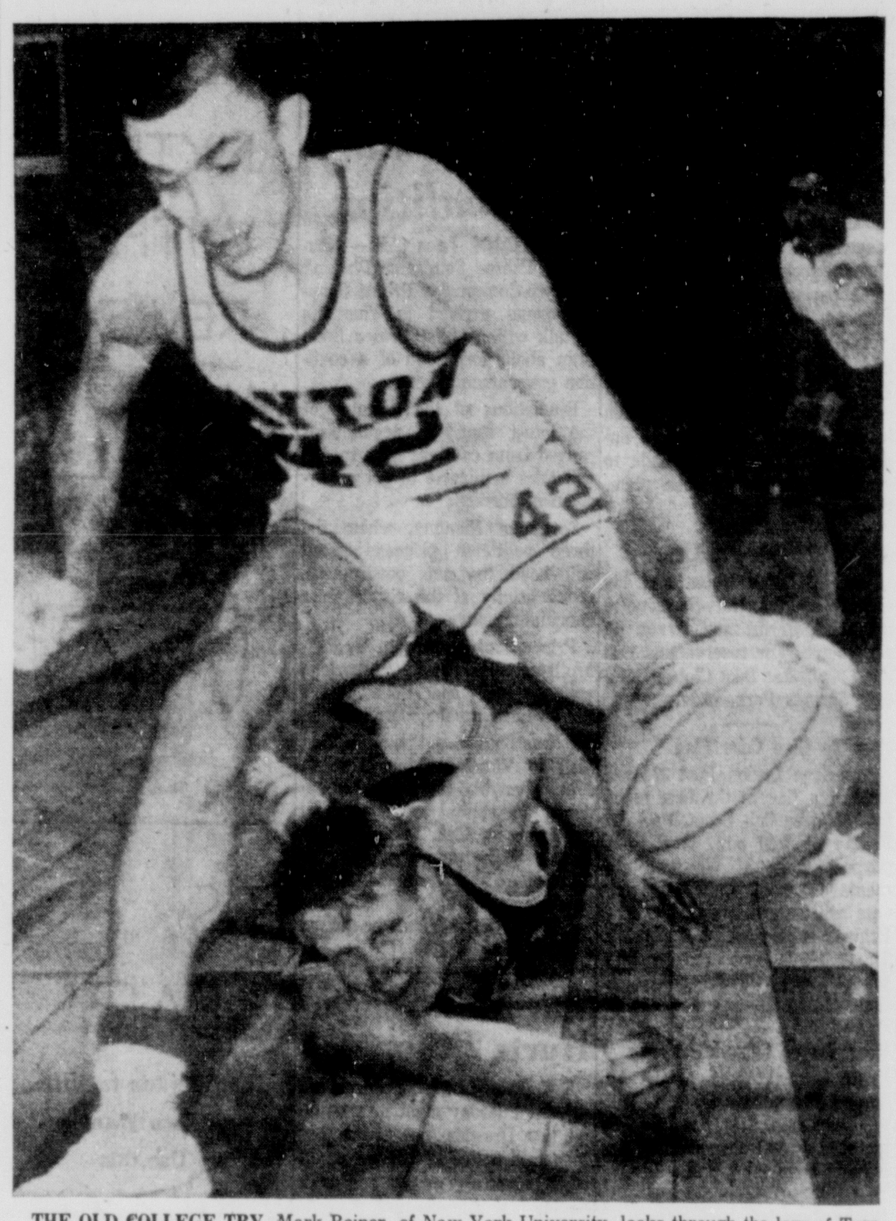

The plane skidded 1,500 feet, but the only visible damage was a bent propeller and dented flaps on the trailing edges of the wings.

Person In False Plane Crash Report Hunted

SUMMERVILLE, Ga. (AP) — Law enforcement officers in this Northwestern Georgia area have stopped looking for a small plane which reportedly crashed with an Ohio family aboard and have begun looking for the person who they say made the false report.

Sheriff Fred D. Stewart said a day and night search has failed to produce any vestige or verification. A similar report came from the area state forestery and Civil defense officials.

An intensive investigation of the incident has been started by the Federal Communications Commission in Atlanta.

Tavern Struggle Hurts 2 City Men

Two East Liverpool men were injured Tuesday night in a struggle in a Dresden Ave. tavern, but they told police it was the result of a wrestling match and both declined to file charges.

George Collins, 51, of 837 Alton St., was treated at City Hospital at 6:40 p. m. for scalp injuries he said were suffered when he was struck with a bottle and fell onto the floor.

Three hours later, James E. Davis, 27, of 316½ Jackson St. was treated for a laceration of the scalp. He said he had been struck on the head with a club.

Lt. Clyde W. Boso said police made an investigation and talked with Collins, who said he and Davis had been wrestling. Collins said the pair knocked over a table containing bottles and he was cut. He refused to file charges, the lieutenant said.

Hit-Skip Affidavit Lists Wrong Driver

LISBON — Police had to change an affidavit after learning the owner of a car involved in a hit-skip accident here Christmas Eve was not the driver.

A witness to the accident on E. Chestnut St. gave police the license number of the vehicle, which continued on after striking a parked car owned by Evangelist Glenn Logston of the N. Beaver St. Church of Christ.

The registration checked out to Warren Garwood of Caldwell Ave. Police located the car parked on W. Chestnut St. but the driver was not around. They charged the owner with leaving the scene of an accident.

Garwood denied the charge. Investigation revealed the car was driven by his brother, William, same address, and the affidavit was changed. William pleaded guilty Tuesday before Mayor Dean Stockman and was fined $25 and costs.

How Can I?

By ANNE ASHLEY

Q. How can I remove grease spots from woolens or silks?

A. Use a little talcum powder, rubbing this over the spots, then brushing off with a stiff brush after allowing to stand for a day or two.

Q. How can I prolong the life of a typewriter ribbon?

A. If the letters are beginning to show up faint, fill a small oil can with olive oil and oil your ribbon with this while running it from one spool to the other. Allow to stand for a day, and you'll be surprised at the heavy black letters produced the next day.

Q. How can I clean a suede jacket?

A. One method that is often very effective consists of rubbing the suede thoroughly with a mixture of equal parts fuller's earth and alum, then following this with a good brushing.

Q. Can you suggest a decorating idea that will help to "lower" an old-fashioned, high - ceilinged room?

A. You can make the ceiling in this room appear lower if you'll paint the walls a dark color, the ceiling a very light or white.

Q. The mortared joints between the tiles on my bathroom walls have become soiled and dingy-looking. How can I restore these to their former whiteness?

A. By rubbing along these joints with a cloth moistened with kerosene. Wrap the cloth around a pointed tool, or around your thumbnail.

Count on cooking a smoked boneless pork shoulder butt, covered with water, for 40 to 45 minutes per pound. Then you can insert whole cloves in the butt, at 1-inch intervals, and glaze it in the oven just as you treat baked ham.

Although the average weekly earnings last year were the highest of any of the 18 years, the report showed employment was at its peak in 1951 with 21,943 on the payrolls. Payrolls hit their high in 1957 with $83,210,229.

Here's a breakdown by categories showing the number employed, the total payroll and the average weekly earnings:

Ex-City Man Named White House Officer

Kenneth O. Beckwith Jr., 26, son of Mr. and Mrs. Kenneth Beckwith, 517 Cherry Ln., has been appointed to the White House police in Washington, a unit under the supervision of the Secret Service.

Beckwith had served since 1958 with the Metropolitan Police of Washington. He also served three years in the Army.

A 1954 graduate of East Liverpool High School, Beckwith is married and has a daughter.

Charities In Toledo Area Will Benefit From Estate

TOLEDO, Ohio (AP) — A committee of attorneys who represent charities benefitting from the estate of Arthur S. Hickok have announced settlement of the estate, which was valued at $5 million when Hickok died June 30, 1945.

Members of the family, employes of the Hickok Oil Co., which Hickok founded, and a score of charities — most of them in this area — were to benefit under Hickok's will, which has been in the courts in Ohio, Texas and New Mexico.

The charities are to receive Hickok's interest in Brewster and Duval counties in Texas—valued at $60,000—plus 97½ per cent of Hickok's mineral interests in the Goldsmith field in Ector County, Tex.

A recent engineering report predicted the Goldsmith field will produce $5 million in income.

Charities named in the will include Geneva Memorial Hospital, Geneva, Ohio; the Baptist Church and School Board, Madison, Ohio, and the Starr Commonwealther of Adrian, Mich., and Van Wert, Ohio.

Attorneys were unable to say what share will go to each charity, but the shares will range from 1.25 per cent to 10 per cent.

The Ohio Supreme Court ruled that bequests to the charities were invalid under Ohio law, so Hickok's widow, Daisy, elected to take one third of the Ohio property to which she was entitled under Ohio statutes. A share went also to a son, Clarence, and a daughter, Mrs. Ruth Hickok Marvin.

The Texas Supreme Court held that the bequests to charity were legal.

Deputy Proves Self 'Human Bloodhound'

ELYRIA, Ohio (AP)— Deputy Parker Miller proved himself worthy of the title, "human bloodhound," after Sadie got out of her kennel and took off.

Sadie, a real live bloodhound, has been trailing missing humans for nearly two years for the Lorain County sheriff's department.

Deputy Miller followed Sadie's tracks in the snow all afternoon Tuesday, but lost the trail at 5 p.m. when he came to a spot where there was no snow.

Three hours later, Miller picked up the trail again, and Sadie was found soon thereafter.

Sadie was returned to her kennel and given a double ration of food after her excusion.

City Loses Appeal In Bid To Stop Tax

CINCINNATI (AP) — The city of Loveland has lost an appeal in the 1st District Court of Appeals in its efforts to stop collection of Cincinnati's income tax from Loveland residents who work in Cincinnati.

The court has upheld a common pleas court ruling that Loveland had no rights or interests that were violated.

County's 4-H Agent Will Return To OSU

LISBON — Joseph V. Burger, Columbiana County 4-H agent since March 1960, will return to Ohio State University next Wednesday to accept a graduate fellowship in the Department of Agriculture Economics.

He plans to complete requirements for a master's degree then work on a doctorate in the field of agriculture outlook and policy.

A native of Stark county, he was graduated cum laude from OSU's College of Agriculture in 1958, and was 4-H agent in Butler County two years. He returned to Lisbon last month after six months active duty in the Marine Corps.

County Agent Floyd Lower said the 4-H position has not been filled.

Ex-Parking Official Asks Sentence Cut

CINCINNATI (AP)—Leo Cafferata, onetime chief of city off-street parking, plans to ask Judge Charles Bell Thursday to cut his sentence of concurrent 1-10 years in prison.

Cafferata was convicted of receiving a $31,250 commission on city purchase of a building for a parking site, and of lying to a grand jury probing the deal.
